2<sup>nd</sup> February 2023

Deputy Sean Sherlock,  
Dail Eireann,  
Leinster House,  
Kildare Street,  
Dublin 2.  
E-mail: [sean.sherlock@oireachtas.ie](mailto:sean.sherlock@oireachtas.ie)

Dear Deputy Sherlock,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

**PQ: 4170/22**

To ask the Minister for Health the number of children aged zero to 18 years of age in each CHO by individual area, awaiting first-time intervention in all areas of early intervention; the number on the public list; the number on the CDNT list in each CHO in tabular form; and the length of time they are awaiting intervention by age.

**HSE Response**

The HSE acknowledges the challenges in meeting the demand for children's disability services and is acutely conscious of how this impacts on children and their families.

Children requiring interventions including health and therapy services would access services through Primary Care Teams in CHO Areas as well as through Children's Disability Services.

HSE Disability Services does not gather data on services provided through other service areas such as Primary Care. It is not possible to give information on the number of children aged zero to 18 awaiting first-time intervention in all areas of early intervention, however Primary Care Operations has compiled the latest available waiting list data, on services for which they collate data, for the end of December 2022 for those aged 0 to 17 years and 11 months.

- Table 1 in the Appendix includes the data for Psychology - Number of 0-17 years & 11 months old Patients waiting for treatment December 2022.
- Table 2 in the Appendix includes the data for Occupational Therapy - Number of 0-17 years & 11 months old Patients Awaiting First Time Assessment December 2022.
- Table 3 in the Appendix includes the data for Physiotherapy - Number of 0-17 years & 11 months old Patients waiting for Assessment December 2022.
- Table 4 in the Appendix includes the data Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Assessment - December 2022.
- Table 5 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Initial Therapy - December 2022.

- Table 6 in the Appendix includes the data for Speech and Language Therapy - Number of 0-17 years & 11 months old patients awaiting Further Therapy - December 2022
- Table 7 in the Appendix includes the data for Dietetics - Number of 0-17 years & 11 months old patients waiting for treatment December 2022.
- Table 8 in the Appendix includes the data for Ophthalmology - Number of 0-17 years & 11 months old Patients waiting for treatment December 2022
- Table 9 in the Appendix includes the data for Audiology - Number of 0-17 years & 11 months old Patients waiting for treatment December 2022

### Children’s Disability Network Teams (CDNTs):

Children’s disability services are provided based on the presenting needs of the child rather than by their diagnosis or the actual type of disability or service required. Services are provided following individual assessment according to the child’s individual requirements and support needs.

In line with the Progressing Disability Services model, resources assigned to children’s disability services are allocated to the 0 – 18 Children’s Disability Network Teams (CDNTs) rather than to a dedicated early intervention team or dedicated school age team.

The principle and importance of early intervention is recognised by the HSE across its services and in particular in the context of the services and supports it provides to children with disabilities, and their families. Additionally, in developing the national policy for the provision of children’s disability services, the focus of the HSE is to ensure that services are:

- Reflective of best national and international practice
- Responsive to the requirements of the UN Convention on the Rights of Persons with Disabilities
- Family and child centred
- Provided as close as possible to the community where children and their families live in line with Sláintecare.

In line with the PDS model, 91 Children’s Disability Network Teams (CDNTs) are aligned to 96 Community Healthcare Networks (CHNs) across the country and are providing services and supports for children aged from birth to 18 years of age.

CDNTs are teams of health and social care professionals, including nursing, occupational therapy, psychology, physiotherapy, speech and language therapy, social work and others. The team works closely together in a family centred model, focusing on the child’s and family’s own priorities.

Regardless of the nature of their disability, where they live, or the school they attend, every child with complex needs and their families have access to the full range of family centred services and supports of their CDNT according to their individual needs. This includes universal, targeted and specialist supports, such as individual therapeutic intervention and access to specialist consultation and assessment when needed. Supports are provided as is feasible in the child’s natural environments - their home, school and community.

### National Information Management System for the CDNTs (CDNTIMS)

Historically the number of children waitlisted for children’s disability services provided by section 38 and section 39 providers has not been available nationally. The establishment of CDNTs will facilitate the collection of this data. A National Management Information System for all 91 CDNTs is in development and when implemented, will provide current data on waiting lists and other details for all CDNTs. In the interim, manual data collection is on-going and will provide information to the local areas regarding the number of children waiting for each CDNT.

The data provided in the table below shows the number of children that are waiting for an initial contact with a CDNT in the 9 CHO Areas. This Dataset represents end of December 2022 activity reports.

Status report	CHO 1	CHO 2	CHO 3	CHO 4	CHO 5	CHO 6	CHO 7	CHO 8	CHO 9
No of children waiting 0-3 months for an initial contact @month end	481	132	294	181	179	120	185	361	87

No of children waiting 4-6 months for an initial contact @month end	315	231	209	164	217	120	258	498	119
No of children waiting 6-12 months for an initial contact @month end	341	1,275	316	272	395	266	672	367	354
No of children waiting over 12 months for an initial contact @month end	186	80	366	1488	1275	685	1551	1903	2302

Please also note that this is an interim dataset as we await the roll out of the National Information Management System and some individual CDNTs indicate that they do not have a system in place to capture this level of activity, therefore there are gaps in data returns for some of the CHO Areas.

Yours Sincerely,

**Bernard O'Regan,  
Head of Operations - Disability Services,  
Community Operations**
