Leinster House,
Kildare Street
Dublin 2

9th June 2023

PQ 27031/23* To ask the Minister for Health if the newly launched HSE capital plan for building and equipment will cover the construction of community adult day services centres; and if he will make a statement on the matter. -Mattie McGrath

Dear Deputy McGrath,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

HSE Capital Plan 2023 outlines how the proposed capital investment, in excess of €1bn in 2023, will be allocated to various service areas and projects. Adult day services form part of the overall community services supported by funding in Capital Plan 2023.

Appendices 1 and 2 of the document provide details of the projects supported in 2023, as these progress through various design stages and into construction. Day service projects listed in Appendix 1 are those projects which are either at construction stage or transitioning into construction stage in 2023. Appendix 2 lists projects at pre-tender stage. As these projects complete design stages, they will move closer to construction. If ready to do so, projects listed in Appendix 2 will also transition to tender and construction stage as 2023 progresses.

The HSE Capital Plan is available for download on the link provided below:
