Deputy Denis Naughten
Dáil Éireann
Leinster House
Dublin 2

4th July 2023

PQ 28988/32 - To ask the Minister for Health the proportion of the €2.2 million allocated for the development of long-COVID services in 2022 that was spent exclusively on long-Covid services; the allocation drawn down by each clinic in 2022; the corresponding figures for 2023; the respective period of operation of each clinic; the number of new patients and recurring patients treated to date; the number of patients awaiting a first appointment in each clinic; and if he will make a statement on the matter.

Dear Deputy Naughten,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary question, which you submitted to the Minister for Health for response.

In response to the need to provide follow up support and care for patients experiencing prolonged signs and symptoms of COVID-19 the HSE developed an Interim Model Of Care (MoC) for Long COVID which was finalised in September 2021. The MoC set out a framework for the provision of services and supports spanning General Practice, Community Services, Acute Hospitals and Mental Health Services. It recommended the development of six Long COVID clinics, eight Post-Acute COVID clinics and one tertiary referral neurocognitive clinic for those with complex neuro-cognitive/neuropsychological symptoms.

The resources and personnel required for each of these clinics was identified and the HSE worked closely with clinicians and senior management at each site to map existing resources against what was outlined within the Model. The approved spend and the expenditure to date relates solely to the implementation of the Long-COVID MoC.

Table 1 below details the dates the clinics started seeing patients. It also shows the related staff costs incurred in both 2022 and 2023. The table also contains activity data to date and patients waiting to be seen at end April 2023.

I trust this is of assistance to you.

Yours sincerely,

A handwritten signature in black ink that reads 'Brian Dunne'. The signature is written in a cursive style with a long horizontal stroke at the end.

Brian Dunne
General Manager
Acute Operations
