21st March 2023

Deputy Marian Harkin,
Dail Eireann,
Leinster House,
Kildare Street,
Dublin 2.
E-mail: marian.harkin@oireachtas.ie

Dear Deputy Harkin,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ: 13310/23

To ask the Minister for Children; Equality; Disability; Integration and Youth when a neurological rehabilitation team will be operational in every community health organisation (details supplied).

Details Supplied: A neurological rehabilitation team is currently only operating in two CHOs serving only 15% of neurological patients in Ireland.

HSE Response

The Programme for Government – 'Our Shared Future' - includes a commitment for advancing neuro-rehabilitation services in the community. The Health Service Executive is leading on the implementation framework in respect of the recommendations of the National Policy and Strategy for the provision of Neuro-Rehabilitation Services in Ireland 2011-2015.

The Neuro-Rehabilitation Strategy Implementation Framework (IF) was launched in February 2019.

The overarching aim of the Strategy is the development of neuro-rehabilitation services to improve patient outcomes by providing safe, high quality, person-centred neuro-rehabilitation at the lowest appropriate level of complexity. This must be integrated across the care pathway, and provided as close to home as possible or in specialist centres where necessary. These services are to be configured into population based managed clinical rehabilitation networks (MCRNs). The overarching aim is the development of population based MCRN's around the country.

Two demonstrator projects within CHO6 and CHO7 were established to assess the feasibility of the model to inform national roll-out. As part of this demonstrator project there is funding for two Community Neuro-Rehabilitation Teams, one in CHO 6 and one in CHO 7. The aim is that these teams will be recruited and operational in 2023. The plan moving forward is to roll out these networks of Neuro-Rehabilitation Services nationally. In line with this, an additional two teams will be introduced in CHO 2 and CHO 4 in 2023.

Within CHO 3 and CHO 1 there are Community Neuro-Rehabilitation Team's that pre-date the strategy. There is currently no Community Neuro-Rehab Team operational within CHO 2, 4, 5, 8, 9, however, moving forward with the strategy, the plan will be to create a population-based

Community Neuro-Rehabilitation Team within each CHO, or RHA following the implementation of the new Regional Health Areas within Sláintecare.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'Brian J. Higgins', with a long horizontal line extending to the right.

Brian J. Higgins

Assistant National Director: Change Planning and Delivery -Disability and Mental Health Services
