As with other areas Disability Services within South East Community Healthcare (SECH) are continuing to experience significant recruitment challenges. The HSE is operating in a very competitive market as there are significant shortages of qualified healthcare professionals nationally and internationally. South East Community Healthcare continues to prioritise local competitions for all disciplines and continues to express posts out to current national panels where relevant.

The HSE acknowledges that current waiting times for CDNT service are particularly stressful for children and their families, and will continue to explore a range of options to enhance the recruitment and retention of essential staff into our CDNTs.

I trust this information is of assistance to you. Should you have any further queries please do not hesitate to contact me.

Yours sincerely,

A faint, handwritten signature in blue ink, which appears to be 'Anne Ennis', is visible above the printed name.
