PQ 20907/23: To ask the Minister for Health the number of dentists on the dental treatment services scheme at the end of quarter 1 of each year 2019-2023 by LHO in tabular form; the number of dentists who submitted claims, the total number of claims in quarter 1 of each year and each full year; and if he will make a statement on the matter

Dear Deputy Cullinane,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for response.

Adult medical card holders have access to dental services under the Dental Treatment Services Scheme (DTSS) through care provided by private dentists that hold DTSS contracts with the HSE.

The number of dentists participating in the DTSS at the end of Quarter 1 of each of the years 2019 to 2023, by LHO is detailed in the attached Excel Sheet. The difference in the number of contractors between each year include resignations/retirements and new entrants to the scheme. (Note: contractors who have resigned but are still serving their 3 months notice period are included in the list as they are required to participate in the scheme for this period.)

The number of dentists who submitted claims under the Dental Treatment Services Scheme and the number of treatment claims that were made in each of the years 2019 to 2023, Quarter 1 and Year End, is detailed in the table below. Data on the number of private contractors who submitted claims is only available from October 2020.

Year	Number of Private Dentists who submitted claims Q1	Number of Private Dentists who submitted claims Year End	Total No. of treatments Q1	Total No. of treatments Year End
