8th June 2023

Deputy Neasa Hourigan
Dáil Éireann
Leinster House
Dublin 2

PQ 24531/23 To ask the Minister for Health if he will set out in tabular form the number of full-time posts and the number of part-time posts currently funded and staffed for non-clinical data management across genetic and rare disease services in the HSE. - Neasa Hourigan

Dear Deputy Hourigan,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

National HR do not collate the information requested at this level of detail. Three of the Hospital Groups have responded to my request for the above information.

Saolta, ULHG and IEHG have confirmed that they do not have any full or part time posts currently funded or staffed for non-clinical data management across genetic and rare disease services. Should I receive further responses I will forward these on.

I trust the above is of assistance.

Yours sincerely,

John Smith
Assistant National Director
Acute Operations
