PQ Question: To ask the Minister for Health the total number of children being treated in-patient adult mental health facilities. -Rose Conway-Walsh

Dear Deputy O'Callaghan,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response. I have examined the matter and the following outlines the position.

HSE Mental Health Services are committed to age appropriate inpatient mental health treatment and to the minimization of the number of admissions of children to adult units, while acknowledging that, in exceptional circumstances, it may be necessary, where there is a clear clinical imperative, to admit a small number of children to adult units, for the shortest time possible.

Children are admitted to adult units only after all efforts to place them in Child and Adolescent in Patient Units are unsuccessful due to capacity or clinical needs. All admissions of young people under the age of 18 years are immediately notified to the Mental Health Commission in accordance with regulations via a CIS202 - Child Admission to Adult Unit Form. The CIS form does not specify a diagnosis but it is highly unlikely that a child or young person with autism only, and in the absence of any mental health problem, would be admitted to an adult approved centre.

Further information on Mental Health Commission's Code of Practice can be found at the following link: <https://www.mhcirl.ie/sites/default/files/2021-06/Addendum-to-admission-children-2011.pdf>

On every occasion that a young person requires to be admitted to an adult unit, there are nursed on a 1:1 basis continuously over the 24 hour period as per the Mental Health Commission's Code of Practice.

The number of children admitted to adult mental health units from the 1st January 2024 to date (12.03.2024) is zero.

I trust this information is of assistance to you.

Yours Sincerely,
