7th March 2024

**Deputy Catherine Connolly,
Dáil Éireann
Kildare Street
Dublin 2**

PQ: 9576/24 - To ask the Minister for Health further to Parliamentary Question No, 142 of 18 January 2024, for an update on the development of the new elective hospital in Merlin Park; if stage 1 has concluded to date; and if he will make a statement on the matter.

Dear Deputy Connolly,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for response.

Since the approval in December 2022 of the Elective Hospitals Preliminary Business Case, the HSE has been progressing the Elective Hospitals Programme. This includes work to further define the shape and scale of the hospitals and how they will operate and the initiation of procurement, ICT and workforce planning. The HSE is also preparing to develop detailed project briefs, design proposals, related business cases and other material, for submission to DPER. This is in accordance with approval gate 2 'Pre-tender Project Design, Planning and Procurement Strategy' of the Infrastructure Guidelines (previously the Public Spending Code), prior to approval to proceed to tender in due course.

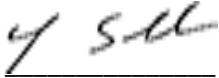

As per previous response, the HSE has progressed the procurement of an Architect Led Design Team which will be appointed to provide the full scope of design services for the proposed Elective Hospitals in Galway and Cork, and the provision of services required to support the Department of Health with the preliminary business case for the Elective Hospital(s) in Dublin. Stage 1 - the preliminary qualification stage has been concluded and Stage 2 tender will be issued shortly which will result in the appointment of the successful Architect Led Design Team. The appointment of the complementary Project Control team will also be coordinated in line with this.

The HSE has also concluded a tender competition for Business Management Consultancy and Health Planning Advisory Services to support the Elective Hospitals Programme. The contract was awarded to Deloitte and support was initiated in late February 2024.

Timelines will be refined as the projects develop and evolve, but the overall programme targets for the Elective Hospitals remain as previously advised, with the hospitals in Galway and Cork planned to receive their first patients in 2027 and to be fully commissioned from 2028 onwards.

I trust the above information is of assistance to you. Please do not hesitate to contact me if you require any additional information.

Yours sincerely
