Dear Deputy Kelly,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

PQ: 24893/24

To ask the Minister for Children; Equality; Disability; Integration and Youth the estimated cost of providing 300,000 extra personal assistant hours for persons with disabilities.

HSE Response

The HSE provides a range of assisted living services including Personal Assistant and Home Support Services to support individuals to maximise their capacity to live full and independent lives.

PA and Home Support Services are provided either directly by the HSE or through a range of voluntary service providers. The majority of specialised disability provision (80%) is delivered through non-statutory sector service providers.

Services are accessed through an application process or through referrals from public health nurses or other community based staff. Individuals' needs are evaluated against the criteria for prioritisation for the particular services and then decisions are made in relation to the allocation of resources. Resource allocation is determined by the needs of the individual, compliance with prioritisation criteria, and the level of resources available. As with every service there is not a limitless resource available for the provision of home support services and while the resources available are substantial they are finite. In this context, services are discretionary and the number of hours granted is determined by other support services already provided to the person/family.

While there is no centrally maintained waiting list for PA and Home Support services, the local HSE CHO areas are aware of the needs in their respective areas and work with the local Service Providers to respond within the resources available.

The HSE is committed to protecting the level of Personal Assistant (PA) and Home Support Services available to persons with disabilities. Table 1 below provides data for PA & Home Support Services delivered to people with a disability from 2014 - 2023. The HSE has consistently, year on year, increased the number of hours of PA and Home Support Services delivered to people with a disability.

Table 1: Figures for PA and Home Support Services Delivered to People with a Disability 2014-2023

	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
PA Services – Number of Hours	1,335,759	1,482,492	1,510,116	1,516,727	1,639,481	1,652,030	1,781,310	1,700,309	1,746,136	1,686,227

Activity Data Quarter 1 2024: PA & Home Support Services

- PA hours delivered = 459,413 in Q1, which is -0.7% down on NSP target of 462,501. However, it is up 5.8% on SPLY reflecting the allocation in the NSP 2024 of additional personal assistant hours to support persons with a disability in their own communities.
- No. People in receipt of PA = 2,867, which is 4.6% ahead of NSP target of 2,740.
- Home Support hrs delivered = 951,427 which is 9.4% ahead of NSP target of 869,998 and 15% ahead of SPLY.
- No. People in receipt of HS = 7,023, which is down on NSP target of 7,326.

Costs

The estimated cost of providing 300,000 extra personal assistant hours for persons with disabilities is approximately €9,300,000 per annum based on rate of €31 per hour.

It is important to take note that these are approximate figures and based on a rate of €31 per hour.

In addition, it is important to note that €2,000,000 has been provided to the CHO areas in 2024 and 2025 (full costs) for the provision of 80,000 additional PA hours based on €25 per hour.

Future Planning

With regard to additional PA and Home Support Services, the Department of Health's 2021 Disability Capacity Review advises that up to €15 million per year by 2032 – equivalent to 600,000 additional hours - is needed to meet the requirements for Personal Assistants and Home Support.

The Action Plan for Disability Services 2024 – 2026 advises that 800,000 extra PA hours and 110,000 extra hours a year is required by 2026 to address shortfall in services and to support individuals with disabilities to live a fuller more independent life and participate in normal activities in the community, in line with UNCRPD Article 19.

Each CHO continues to actively manage applications for support from service users with high levels of acuity/safeguarding risks, through active case-management and inter-agency cooperation.

Yours Sincerely,

Bernard O'Regan
