PQ 10780/24: To ask the Minister for Health the number of medical card patients seen by dentists on the DTSS for each year from 2012 to date inclusive, in tabular form; and if he will make a statement on the matter.

Dear Deputy Cullinane,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for response.

Adult medical card holders have access to dental services under the Dental Treatment Services Scheme (DTSS) through care provided by private dentists that hold DTSS contracts with the HSE. The DTSS is a “choice of dentist” scheme which does not require the patient to register with a particular dentist and enables medical card holders to attend any DTSS contractor directly without recourse to the HSE.

The number of medical card patients seen by dentists on the DTSS for each year from 2012 to date inclusive is detailed in the table below.

Year	No. of Persons treated
