Phase 2 Mulhuddart Village
Dublin 15

Re Rep 35195/2024

Dear Deputy Donnelly,

The National Environmental Health Service is a National Service across the HSE and is not resourced or managed on a CHO geographical basis.

Resources are allocated nationally based on establishment numbers/operational need in order to ensure the implementation and enforcement of the various statutory provisions for which the NEHS has responsibility.

Taking account of the geographic area covered by CHO7 the table below sets out the WTE of the HSE National Environmental Health Officers assigned to this area in 2023 and to-date in 2024

Service	WTE DEC 2023	WTE JUL 2024
National Environmental Health Service EHO Staff - CHO 7 Area	74.25	75.34

Yours sincerely,

Deirdre Lavin
Regional Chief Environmental Health Officer
Dublin Mid-Leinster
