

Ms Marie Sherlock, TD,
Dáil Éireann,
Leinster House,
Kildare Street
Dublin 2

25th April 2025

PQ 17327/25*To ask the Minister for Health the number and location of HSE health and social care facilities that are planned to have solar panels installed in 2025, by county, in tabular form; and if she will make a statement on the matter. - Marie Sherlock

PQ 17328/25*To ask the Minister for Health the value of solar panel installation contracts that have been issued, per county, for HSE buildings in 2022, 2023, 2024 and that are planned for 2025, in tabular form; and if she will make a statement on the matter. - Marie Sherlock

PQ 17329/25* To ask the Minister for Health the number and location of HSE health and social care facilities that have received solar panels in 2024 and 2023, by county, in tabular form; and if she will make a statement on the matter. - Marie Sherlock

Dear Deputy Sherlock,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

I propose to address all three Parliamentary Questions in this one response.

Enclosed with this response is a list of solar panel installation contracts that have been issued, per county, for HSE buildings in 2022, 2023, 2024 including associated costs. The values identified are the full project costs which are co funded by HSE and the Sustainable Energy Authority of Ireland (SEAI), and includes for all works associated with these projects where relevant, such as design team fees, surveys and planning. All of these solar panel installation works were standalone projects.

Additionally, a list of planned solar panels installations for 2025, by county including estimated cost is also enclosed. These lists provide a summary of PV solar projects which have been progressed as part of the HSE energy retrofitting programme.

Solar panel installations will also have progressed as part of major capital projects as a requirement to achieve compliance with building regulations and in the application of the HSE's approach to designing Net Carbon Zero ready buildings. In such cases, details on specific solar panel elements of an overall major capital works package would not be available as they are not recorded separately. Likewise specific locations are not recorded separately.

Yours sincerely

Micheál Conneely
Interim National Director
Capital & Estates

2022			
Location Name	HSE	County	Final Capital Cost inc VAT [€]
