Dear Deputy Clarke,

The Health Service Executive has been requested to reply directly to you in the context of the following parliamentary question, which was submitted to this department for response.

**PQ: 2148/25**

*To ask the Minister for Children; Equality; Disability; Integration and Youth the reason the midlands is one of only two regions of the country which still has not been funded for a community neurorehabilitation team; the plans he has to change this; and if he will make a statement on the matter.*

**HSE Response**

The Programme for Government – 'Our Shared Future' - includes a commitment for advancing neuro-rehabilitation services in the community. The Health Service Executive is leading on the implementation framework in respect of the recommendations of the National Policy and Strategy for the provision of Neuro-Rehabilitation Services in Ireland 2011-2015.

The Neuro-Rehabilitation Strategy Implementation Framework (IF) was launched in February 2019. The overarching aim of the Strategy is the development of neuro-rehabilitation services to improve patient outcomes by providing safe, high quality, person-centred neuro-rehabilitation at the lowest appropriate level of complexity. This must be integrated across the care pathway and provided as close to home as possible or in specialist centres where necessary. These services are to be configured into population based Managed Clinical Rehabilitation Networks (MCRNs). The overarching aim is the development of population based MCRN's around the country.

Funding was secured for a Community Neuro-Rehabilitation Team (CNRT) in HSE Galway, Roscommon and Mayo, HSE South West, HSE Dublin South and Wicklow and HSE Dublin South West, South City and West and Kildare West Wicklow. Recruitment is progressing for these teams.

There are two CNRTs in existence in HSE Donegal and HSE Mid West that predate the strategy. Estimates bids were submitted to Budget 2025 to uplift these existing teams and fund CNRTs in those IHAs/RHA that do not have funding

for a team. There is currently no CNRT operational in HSE Carlow, Kilkenny, Tipperary South, Waterford/Wexford, HSE Midlands, Louth/Meath and HSE North County, North City & West.

Moving forward with the strategy the plan will be to enhance the existing CNRTs and to create a large population-based Community Neuro-Rehabilitation Team (CNRT) within each RHA following the implementation of the new Regional Health Areas within Slaintecare. The Disability Action Plan outlines a team of 18 WTE per CHO by 2026 to be reconfigured into one larger CNRT per RHA. Estimates bids will be submitted to Budget 2026 to enhance existing teams and fund CNRTs in those IHAs/RHAs that do not have funding for CNRT.

The HSE continues to engage with DCEDIY through the annual budgetary process to secure the necessary funding to establish this essential service in such a way that there is equity of access for those who need it regardless of where they live.

As per the 2025 National Service Plan the HSE is committed to develop Community Neuro-Rehabilitation Teams (CNRTs) in line with the *Neuro-Rehabilitation Implementation Framework* (2019) and enhance capacity for its implementation nationally

Yours Sincerely,

**Bernard O'Regan**  
**Assistant National Director**  
**Access and Integration,**  
**Disability Services**
