21<sup>st</sup> February 2025

Mr. David Cullinane, TD  
Dáil Eireann  
Leinster House  
Kildare Street  
Dublin 2

By email to: [david.cullinane@oireachtas.ie](mailto:david.cullinane@oireachtas.ie)

**Ref: PQ 3504/25**

**To ask the Minister for Health for each model 3 and model 4 hospital, the number of days that full capacity protocols have been active, for each December and January for each year 2019-2025, inclusive, in tabular form.**

---

Dear Deputy Cullinane,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted to the Minister for response.

Please find enclosed at Appendix 1 the data as per your request. Please note that this data is not validated and is self-reported data uploaded daily on the TrolleyGAR system.

Full Capacity Protocol (FCP) including temporary placement of patients to extra beds is implemented as a final institutional response to continued ED overcrowding after all other possible escalation triggers / measures have been implemented to facilitate safer patient care. An ED Escalation Framework (revised Nov 2023) provides an overall framework to enable hospitals to have in place a structured response to escalating risk for patients from triage through to review and discharge or placement in beds on wards.

Additionally, Urgent and Emergency Care data is published daily on the HSE website and can be accessed via the following link: <https://www2.hse.ie/services/urgent-emergency-care-report/>

I trust that this information is of assistance to you.

Yours sincerely,

---

Tara Shortt  
General Manager  
Performance, HSE Planning and Performance
