25<sup>th</sup> February 2025

***PQ 5206/25 - To ask the Minister for Health the number and percentage of patients who were waiting 0-6 hours, 0-9 hours, 9-24 hours, and 24+ hours for admission to an emergency department in each quarter in each year from 2019 to 2024, nationally and by ED, in tabular form. -Pádraig Rice***

Dear Deputy Rice,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The HSE Business Information Unit (BIU) is a central repository for activity information for Acute and Non Acute Services. The BIU collects, collates and validates extensive amounts of data which is used in performance monitoring and measurement to support the HSE in operational and strategic decisions.

Patient Experience Time (PET) is the length of time a patient spends in an emergency department from the time they register in an Emergency Department (ED) until they are discharged to a hospital bed or discharged home. It therefore does not describe the time a patient is waiting to be seen, but the total time they spend in ED.

There are many reasons that result in longer wait times such as volume of patients presenting to the emergency department and the requirement to prioritise, treat and care for the sickest and older cohort of patients and those with life threatening illnesses. This can mean that patients with less serious illnesses and conditions may need to wait longer for their treatment.

The HSE is experiencing an increase in ED attendances with a significant increase in the number of patients aged 75 and over attending EDs with complex care needs and often requiring admission to hospital or further treatment.

The information requested has been provided in the attached Excel file supplied by the Acute BIU.

The data shows the total number of all patients who attended an Emergency Department (ED) and were recorded in the following time bands between 0-6 hours, 0-9 hours and greater than 24 hours, for each quarter in 2019 to 2024, for all patients and patients aged 75 and over.

The data for this Parliamentary Question relates to total number of attendances who were admitted or non-admitted, for all patients. This is the National Key Performance Indicator (KPI), data is not split out by admissions.

Please see the data notes on the Excel file and outlined below:

Data notes:

- Children's Health Ireland includes CHI at Crumlin, CHI at Tallaght, CHI at Temple St.
- HSE Cyber - Attack Data Gaps: Naas General Hospital May-2021 - June-2021 (recommenced Jul-2021) and Connolly Hospital June-2021 (recommenced July-2021).
- Excludes discharge destination: Not yet discharged.

I trust this is of assistance to you.

Yours sincerely,  
**Nessa Lynch**  
**General Manager**  
**Access and Integration**
