Dear Deputy Moynihan,

The Health Service Executive has been requested to reply directly to you regarding your parliamentary question, which you submitted to the Minister for Health for a response. I have examined the matter and the following outlines the position.

The Health Service Executive Primary Care Service can confirm that the Primary Care Centre, Boot Rd, Clondalkin is open and operational. The following services are delivered from this state-of-the-art healthcare facility:

- **Children's Primary Care Services including** Public Health Nursing, Senior Medical Officer appointments, Occupational Therapy, Physiotherapy, Dietetics services and the Children's Changing Together Team (metabolic weight management).
- **Adult Primary Care Services including** Public Health Nurse Services, PHN Wound Clinic, Speech & Language Therapy, Occupational Therapy, Physiotherapy Social Work and Dietetics services.
- **The Chronic Disease Hub** including the Older Persons Services (ICPOP Team), the Chronic Disease Management Team.
- **General Practice (GP)** services.
- **Other Services include:** The Community Intervention Team, Counselling in Primary Care (CIPC), the Public Health School Immunisation Team, the Mobile Immunisation Team and the soon to be appointed Neuro-Rehabilitation Team.

There has been challenges with the recruitment and retention of staff across many Primary Care Services. The Dublin South City & West, Dublin South West Kildare & West Wicklow Integrated Healthcare Areas are working to address the impacts staff vacancies. The HSE continue to review service needs and prioritise services for recruitment in line with the HSE's Pay and Numbers strategy. Every effort will be made to improve access and reduce waiting lists for the local population in line with this strategy.

I trust this information is of assistance to you but if you have any queries or require any further information, please do not hesitate to contact me.

Yours sincerely,

Brian Kearney  
Head of Primary Care
