PQ 5868/25 – *“To ask the Minister for Health if she is aware of the private healthcare and therapy services offered in the primary care centre in Balbriggan; the number of hours private services are offered in this facility on a weekly basis; the amount of income the HSE derives from this service, by money received for room rental and equipment rental; and if she will make a statement on the matter” – Louise O'Reilly TD*

Dear Deputy O'Reilly,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question which you submitted for response. I examined the matter and the following outlines the position.

Balbriggan Primary Care Centre is located in Integrated Health Area Dublin North County (IHA DNC) and delivers a variety of integrated care services to meet the health needs of the local population.

There are no private healthcare or private therapy services operating within the centre's HSE managed premises and thus nil hours of private service provision with no income generated for the HSE through room rental or equipment use in this regard.

Any private practices within the building have separate agreements with the landlord.

I trust this information clarifies your query.

Yours sincerely,

Gonne Barry
A/General Manager Primary Care
Dublin North County
