Deputy David Cullinane
Dáil Éireann
Leinster House
Dublin 2

31st July 2025

**PQ 38182/25 - To ask the Minister for Health the number of delayed transfers of care for the first six months of each year 2023-2025, inclusive, at each location, in tabular form; the number of delayed discharges and the number as a percentage of all discharges; the number of bed days lost and the number as a percentage of all bed days available for the period. -David Cullinane**

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The HSE Business Information Unit (BIU) is a central repository for activity information for Acute and Non Acute Services. The BIU collects, collates and validates extensive amounts of data which is used in performance monitoring and measurement to support the HSE in operational and strategic decisions.

Delayed Transfer of Care occurs when a patient is ready to leave inpatient care but is still occupying a HSE funded bed. A patient is ready to leave inpatient care when all of the following three conditions are met:

- A clinical decision has been made that the patient is medically ready for discharge to their home or for transfer to a non-acute setting (MFFD)
- A multidisciplinary team (MDT) have reviewed the patient and a decision has been made that the patient is ready for transfer home or to an alternate care setting
- The patient is considered to be safe to discharge to their home /transfer to a non-acute setting.

There are a number of possible reasons why a patient may not leave an acute setting despite being clinically discharged. These can include patients who are awaiting arrangement of suitable home support or residential care and patients with complex clinical needs or legally complex circumstances.

The HSE publish a weekly urgent and emergency care analysis report every Monday; https://www2.hse.ie/services/urgent-emergency-care-weekly-update/

The report looks back at the week previous and shows:

- the number of people who went to an emergency department (ED) and who were admitted for care.
- year-on-year comparisons of the weekly ED numbers.

average wait times for admission or discharge through the ED.
- average weekly number of people on trolleys.
- year-on-year comparisons of the weekly trolley numbers.
- how many beds were used as part of a hospital's surge capacity.
- analysis of the number of patients experiencing a delay in discharge.

The report is a weekly analysis and comparison of the figures we publish in our daily urgent and emergency care report:
https://www2.hse.ie/services/urgent-emergency-care-report/

The Bed Days Lost is a cumulative number of bed days lost to delayed transfers of care for that time period.

### Data notes:

- Please note BIU Acute cannot provide the number as a percentage of all discharges we would advise against using this as a calculation as a Delayed Transfer of Care (DTOC) is not a discharged patient.
- Please note BIU Acute cannot provide the number as a percentage of all bed days available, we are currently validating bed days available data with some hospitals so the data would not be reliable for all.
- Please note the Number of DTOC patients for each month relate to a point in time. The 'point in time' relates to a snapshot census of DTOC patients on the list, on the last Tuesday of each month.
- Please note Children's Health Ireland includes CHI Tallaght, CHI Crumlin and CHI Temple Street.

I trust this is of assistance to you.

Yours sincerely

**Nessa Lynch**
**General Manager**
**Access and Integration**

HSE

**Information Request Number:  PQ 38182/25**
**Date report created:  31/07/2025**
**Data Source: BIU MDR**

**Subject:** Jan to June 2023, **The number refers to average number of beds subject to delayed transfers of care.**
**BDL refers to the number of acute bed days lost through delayed transfers of care**
**PQ:  To ask the Minister for Health the number of delayed transfers of care for the first six months of each year 2023-2025, inclusive, at
each location, in tabular form; the number of delayed discharges and the number as a percentage of all discharges; the number of bed
days lost and the number as a percentage of all bed days available for the period. -David Cullinane**

Please note BIU Acute cannot provide the number as a percentage of all discharges we would advise against using this as a calculation as a DTOC is not a discharged patient

Please note BIU Acute cannot provide the number as a percentage of all bed days available we are currently validating bed days available data with some hospitals so the data would not be reliable for all

Please note the Number of DTOC patients for each month relate to a point in time. The 'point in
time' relates to a snapshot census of DTOC patients on the list, on the last Tuesday of each
month.

Please note Children's Health Ireland includes CHI Tallaght, CHI Crumlin and CHI Temple Street
