05 August 2025

Deputy Pa Daly  
Dáil Eireann  
Leinster House  
Kildare Street  
Dublin 2

**PQ 40089/25**

**To ask the Minister for Health the average waiting time for adults special care needs GA waiting list for routine dental care in each hospital, in tabular form.**

Dear Deputy Daly,

The Health Service Executive (HSE) has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for response.

The HSE Community Dental Service provides emergency care, dental examinations and treatment to children up to the age of 16. The service also provides dental treatment directly to a range of adult patients with additional needs, with the majority of adult medical card holders being provided with access through the DTSS. A small proportion of children and adults with additional needs will be identified as being unable to accept dental care without the assistance of sedation. The HSE dental service has access to a number of referral pathways for which a recent survey was undertaken (summary below). The wait times provided below were collated at a single point in time (June 2025) and are subject to change as provision of care under General Anaesthetic requires access to hospital based operating theatres and facilities. The waiting times will also depend on the number of patients with additional needs assessed in the dental service. Both hospital and dental service staff and locations are resource dependent. All of the services have systems in place to manage those who have urgent (symptomatic) need for care.

Region	Average Wait Time
HSE Mid-West	Longest waiter 18 months
HSE SouthWest	12-18 months
HSE West and North West	12-24 months
HSE Dublin and North East	12-18 months
HSE Dublin and Midlands	36 - 48 months
HSE South East	24 -60 months

I trust this information is of assistance to you, but if you require further clarification please do not hesitate to contact me.

Yours Sincerely,

**Anne O'Neill**  
**Assistant National Director, Oral Health**
