**PQ – 31457/25 - To ask the Minister for Health the funding allocated to the Access to Care fund from 2021 to date, broken down by year, by hospital, by amount allocated to each hospital, public and private each year; and if she will make a statement on the matter.**

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Questions, which you submitted to the Minister for Health for response.

**Response:**

Access to Care funding is targeted funding available to hospitals for waiting list initiatives and measures to increase capacity and assist with reform and innovation. The appendix contains the amount of Access to Care funding provided to public hospitals for 2021 – 2025, broken down by hospital and by year.

The National Treatment Purchase Fund (NTPF) has supported insourcing with individual hospitals.

Individual hospitals may have local arrangements in place for service provision.

I trust that this answers your question.

Yours sincerely,

**Sheila McGuinness,**
