Deputy David Cullinane  
Dáil Éireann  
Leinster House  
Dublin 2

31<sup>st</sup> March 2025

***PQ10925/25 To ask the Minister for Health the number and percentage of patients waiting 0-6 hours, 0-9 hours, 9-24 hours, and 24+ hours for admission an emergency department, Statewide and by location, in each of the years 2019 to 2024 and to date in 2025; and the number and percentage for all patients and patients aged over 75, in tabular form. -David Cullinane***

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The HSE Business Information Unit (BIU) is a central repository for activity information for Acute and Non Acute Services. The BIU collects, collates and validates extensive amounts of data which is used in performance monitoring and measurement to support the HSE in operational and strategic decisions.

Patient experience time (PET) shows:

The total number of all patients who attended an Emergency Department (ED) and were recorded in the following time bands between 0-6 hours, 0-9 hours and greater than 24 hours, for each quarter in 2019 to 2024, for all patients and patients aged 75 and over.

Patient Experience Time (PET) is the length of time a patient spends in an emergency department from the time they register in an Emergency Department until they are discharged to a hospital bed or discharged home. It therefore does not describe the time a patient is waiting to be seen, but the total time they spend in ED.

The purpose of EDs is to deal with serious and unexpected illness and injury. EDs operate 24/7 and often experience high volumes of persons presenting. During busy periods or when a significant emergency / trauma is underway 'wait time' in the ED can be extensive

There are many reasons that result in longer wait times such as volume of patients presenting to the ED and the requirement to prioritise. This can mean that patients with less serious illnesses and conditions may need to wait longer for their treatment. Many people, whose clinical needs could be more appropriately addressed by self-care, pharmacists, GPs, GP Out of Hours Services and Injury Units, continue to attend Emergency Departments.

The information requested has been provided in the attached Excel file supplied by the Acute BIU, please see the data notes on the Excel file and outlined below.

Please see the data notes on the Excel file and outlined below:

Data notes:

- Admitted & Non Admitted inclusive
- Children's Health Ireland includes CHI at Crumlin, CHI at Tallaght, CHI at Temple St.
- Excludes discharge destination: Not yet discharged.

I trust this is of assistance to you.

Yours Sincerely

**Nessa Lynch**  
**General Manager**  
**Access and Integration**
