"To ask the Minister for Health the current waiting time for a children's occupational therapy primary care review, by area in CHO4, in tabular form"

Dear Deputy Gould,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The Paediatric Occupational Therapy Department helps children and young people aged 0-18 years who are experiencing difficulty in performing the daily activities expected of them. This may include any of the areas of self-care, dressing, toileting, feeding; movement and coordination such as balance skills, ball skills, hand-eye coordination; sensory processing; handwriting and planning and organising skills at home or school. Referrals are accepted from parents, guardians, teachers, or other professionals working with the child.

The below table outlines the current waiting time for a children's occupational therapy primary care review and appointment as there is only one waiting list:

Weeks	North Cork	North Lee	South Lee	West Cork	Kerry
0 -12 weeks	84	228	230	75	133

If I can be of any further assistance please do not hesitate to contact me.

Yours sincerely,

Mari O'Donovan
