Ref: PQ 25936/25

To ask the Minister for Health the level of funding provided for tobacco cessation services from 2014 to 2024, and to date in 2025, by year, in tabular form; and if she will make a statement on the matter.

Dear Deputy Rice,

The Health Service Executive has been requested to reply directly to your above referenced Parliamentary Question, which you submitted to the Minister for Health. The question concerned was referred to HSE Health and Wellbeing for review and direct response as the work of the Tobacco Free Ireland Programme (TFIP) is part of that function.

Tobacco cessation measures include smoking cessation medications provided to clients accessing stop smoking services (either via the Primary Care Reimbursement Scheme or the new HSE free stop smoking medicines scheme), frontline HSE intensive smoking cessation services (staff costs, IT patient management system costs), the National Quitline and mass media (QUIT) campaign.

The QUIT Campaign aims to increase the demand for QUIT support services and National Quitline and medication costs subsequently vary and are demand led.

² The development of the Sláintecare Healthy Communities and Enhanced Community Care Chronic Disease Programmes saw investment in new stop smoking services in disadvantaged areas where smoking prevalence continues to be high.

³ Investment in 2024 for improved reporting and integration with other IT systems (e.g. GP systems).

⁴ Spend to end of May 2025 (where available). Data from PCRS not yet available. NRT via Stop Smoking Services and National Quitline billing are for Jan – April.
