Deputy David Cullinane
Dáil Éireann
Leinster House
Dublin 2

26th June 2025

PQ 28745/25 - To ask the Minister for Health the estimated cost of removing hospital car parking charges; the revenue raised by each HSE and section 38 hospital, for each hospital, to be requested from each hospital individually and collated in a single response, in tabular form. -David Cullinane

Dear Deputy Cullinane,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

The Access and Integration department contacted colleagues in the Health Regions offices to obtain the relevant information as some the requested data is not held centrally.

Please find enclosed an Excel file compiling the responses received.

Please note it would not be accurate to base projections of the estimated costs of removing hospital car parking charges on revenue generated figures only. In both statutory and voluntary hospitals, due consideration would need to be given to any costs that would be incurred as a result of any buy out of contracts or other arrangements.

I trust this information is of assistance to you.

Yours sincerely

Nessa Lynch
General Manager
Access and Integration
