Dear Deputy O'Dea,

The Health Service Executive has been requested to reply directly to you in the context of the above Parliamentary Question, which you submitted to the Minister for Health for response.

To date, there are 180 operational Primary Care Centres which have been delivered by the HSE

There are 7 Primary Care Centres currently in construction and anticipated to be complete in 2025 - 2027.

There are approximately a further 80 locations where the HSE are considering developing Primary Care Centres. Progression of any infrastructural programme is undertaken following alignment with the Department of Health's Strategic Healthcare Investment Framework after which projects are progressed in line with Infrastructure Guidelines.

Yours sincerely
