RE: PQ ref: 45790 – “To ask the Minister for Health the number of business cases received from a hospital in each of the past ten years (details supplied) regarding the expansion of the neurosurgery programme; the decisions that have been made on these cases to date; the reasons they may have been refused; and if she will make a statement on the matter.”

Dear Deputy Rice,

Please be advised that Beaumont Hospital is in the process of progressing a development strategy for a new Neurosciences Block incorporating all related specialties within the broader context of an updated Outline Capital Development Plan for its campus. The development is currently at concept stage and is being benchmarked against international standards for the provision of a comprehensive range of services for the diagnosis, treatment and care of all neurological conditions.

If I can provide any further information, please let me know.

Kind regards,

Anne Coyle
