Emergency Department Care- Activity Profile (EC-AP) Resource/Issues Template

The purpose of EC- AP

The purpose of Emergency Department Care- Activity Profile (EC-AP) is to provide "close to real time" data that is clinically and managerially relevant. It uses the BIU PET data to describe the activity of the department alongside individual ED profile/resources information to contextualise that activity. Data quality and completeness need to be managed on an ongoing basis both nationally and at hospital level.

Emergency Department Care- Activity Profile (EC-AP) Resource/Issues Template Captures:

1. ED Facility Resources Summary as follows:
   - ED Type
   - Medical Staffing WTE
   - Nursing Roles & WTE
   - HCSP Roles & WTE
   - ED Design
   - Hospital Structures
2. Issues log
   - Type of issue;
     - Ingress/Input
     - Throughput/Process
     - Egress/Output
