

Using a HSE Smartphone as a WiFi hotspot

Warning: If you are using a Microsoft Surface Pro Tablet, do not attempt to connect via a Hot Spot from your phone as it will wipe your phone

		
<p>Step 1: Unlock your phone and Slide your finger downwards starting from the top of the screen.</p>	<p>Step 2: Press the settings icon.</p>	<p>Step 3: Press Connections</p>
		<p>Step 6: From your laptop, find the WiFi network from Step 5 above and connect to it. When prompted for a password, enter the password noted in Step 5</p>
<p>Step 4: Press “Mobile Hotspot & Tethering”</p>	<p>Step 5: Tap on “Mobile Hotspot” and select the option to turn on Mobile Hotspot. Note the WiFi name and the password:</p>
