On behalf of Laois Local Community Development Committee, I am delighted to support the publication of the Healthy Laois Plan 2018–2020.

This Plan, the first of its kind in Laois, shows the co-operation and support of many partners, both LCDC and beyond and reflects a significant body of work produced in a short time frame. Healthy Ireland is based on the premise that health and well-being is affected by all aspects of a person’s life including education, socio-economic status and physical environment. This plan aims to increase the proportion of people who are healthy at all stages of life, reduce health inequalities and protect the public from threats to health and wellbeing. The Plan aims to create an environment where every individual and sector of society can play their part in achieving a healthy Laois. Recent health studies have shown the need for preventative action to begin now if we are to address areas of concern such as physical activity, mental health, healthy activity, sexual health and substance abuse.

This Plan seeks to embrace and recognise national policies and plans and their need to be integrated and implemented at local level, in particular in the Local Economic and Community Plan (LECP). Laois LCDC, understanding local needs and issues, will work to promote and improve the health and wellbeing of all people living in Co. Laois.

We are focused on operating within existing structures by exploring how resources can be aligned and used with maximum efficiency and effectiveness. The Healthy Laois Implementation team will seek to enable the Healthy Laois Plan to achieve the greatest impact possible on the health and wellbeing of all in Laois in the future.

I congratulate all involved in the making of this Plan and I lend my commitment to that delivery of its objective to make Laois a healthier county going forward.

Cllr. Paschal McEvoy
Chairperson
Laois LCDC
FOREWORD FROM CHIEF EXECUTIVE

I am delighted to endorse this 3-year Healthy Laois Plan developed by Laois Local Community Development Committee. The plan demonstrates our commitment in Laois to the vision of the Healthy Ireland Framework where everyone can enjoy physical and mental health and wellbeing to their full potential and where wellbeing is valued and supported at every level of society and is everyone’s responsibility.

Laois County Council, through our various local authority programmes, as well as through as our Local Economic and Community Plan (LECP) and County Development Plan, is committed to working with our partners to shape the broad and sustainable development of the county. This includes physical and mental well being. We need to work together to build an environment that supports individuals, families and indeed communities to lead healthier lifestyles. The Healthy Laois Plan is a timely and welcome step towards achieving that goal. Evidence and experience from around the world shows it takes the involvement and participation of all sectors of the community and of society as a whole to create that positive change in health and wellbeing to which we all aspire.

I would like to thank the elected members of Laois County Council for their full support in this very important project and I extend my congratulations and thanks to my fellow members of Laois Community Development Committee for their input to the Plan. I am confident the Plan has the support and commitment of Laois County Council in its implementation and delivery for the citizens of Co. Laois.

John Mulholland
Chief Executive
The Healthy Laois Plan has been developed in the context of the Healthy Ireland Framework, which in turn is framed in the context of the European policy framework “WHO Europe Health 2020”, which focuses on improving health for all and reducing health inequalities, through improved leadership and governance for health.

The cross-governmental Healthy Ireland Framework underpins a movement that brings together people and organisations countrywide, to address the social, economic and environmental factors that contribute to the development of chronic disease and to address health inequalities. The Framework, led and endorsed by the highest level of government, sets out the economic and societal benefits of protecting and maintaining the health of our citizens, preventing illness and intervening early.

The Healthy Ireland Framework emphasises the need to empower communities and people to look after their own health and wellbeing. The Healthy Laois Plan supports the implementation of Healthy Ireland at local level, to improve the health and wellbeing of the people of Laois.

The Healthy Ireland Framework introduces a vision:

"Where everyone can enjoy physical and mental health and wellbeing to their full potential, where wellbeing is valued and supported at every level of society and is everyone’s responsibility".
The four interlinked goals of Healthy Ireland are:

• **Goal 1: Increase the proportion of people who are healthy at all stages of life**
  Aiming to improve levels of health and wellbeing at all stages of a person’s life, decrease prevalence of unhealthy behaviours that contribute to chronic disease and increase the degree to which diseases/conditions are prevented or detected early for intervention.

• **Goal 2: Reduce health inequalities**
  A focus on reducing the gaps between the various socio-economic groupings, and between the wealthiest and most deprived areas in order to reduce health inequalities.

• **Goal 3: Protect the public from threats to health and wellbeing**
  Ensuring that Ireland has effective and integrated strategies and interventions to protect the public from new and emerging threats to health and wellbeing.

• **Goal 4: Create an environment where every individual and sector of society can play their part in achieving a healthy Ireland**.
  Recognising the need for relationships to be established and fostered between sectors in addressing the determinants of health and wellbeing, and the need for partnerships to be developed between all sectors and the community.

We recognise that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and a requirement for sustainable development. In this way, we will support the implementation of the UN Agenda for Sustainable Development by assisting all local stakeholders to act in collaborative partnership.
KEY NATIONAL POLICIES

1. Tobacco Free Ireland (2013)
This policy seeks to de-normalise tobacco within Irish society, reduce initiation rates, assist smokers to quit and protect non-smokers, especially children, from the effects of smoking, by building a stable policy and legislative framework.

This strategy takes a life course implementation approach and acknowledges the importance of developing a healthy attitude to sexuality in young people and building on that foundation for positive sexual health and wellbeing into adulthood and older age.

This plan promotes the multiple benefits of physical activity to health and wellbeing. It promotes healthy growth and development in children and young people and recognises the importance for healthy ageing of maintaining good physical health.

This plan notes the rising levels of overweight and obesity are placing increasing burdens on individuals and society and takes a 10-step approach to addressing the issue through health service models, promotion/education, prevention initiatives and acknowledgement of the key role of physical activity.

This strategy emphasises a health-led response to drug and alcohol use in Ireland, based on providing person-centered services that promote rehabilitation and recovery. It aims to create a healthier and safer Ireland where substance misuse is reduced and every person affected by substance misuse is empowered to improve their health, wellbeing and quality of life.

6. Connecting for Life
An overall Government Strategy to reduce suicide in Ireland.

7. National Positive Ageing Strategy
This strategy seeks to change the mindset in how people view ageing and to promote positive ageing. It seeks to highlight ageing as not solely a health issue, but one that requires a whole government response.

This Plan seeks to embrace and recognise the above national policies and plans and their need to be integrated and implemented at local level. Laois LCDC, understanding local needs and issues, will work to promote and improve the health and wellbeing of all people living in Co. Laois.
LOCAL CONTEXT

**Laois County Development Plan 2017-2023**

The County Development Plan references sport, physical activity and recreation in the context of adequate and accessible provision of open space, sport and recreational facilities including swimming pools and public parks this is likely to become more important as densities in central areas increase. Open space policies will be considered in the context of these provisions.

There is specific reference within the plan to:

- Encouraging and supporting communities to develop sporting facilities;
- Cater for the sport and recreational needs of all sectors and ages of the community and promote the integration of those with special needs into that environment;
- The enhanced availability and use of the outdoors as a recreation and tourism space and the development of trails.
- Work in cooperation with Laois Sports Partnership to explore the potential for clustering facilities to provide a regional sports centre in a strategic location;
- The need to protect existing sports facilities.
- Requiring appropriate provision by developers of sport and recreation infrastructure in the case of large-scale residential developments.
- Recognise the role played by natural amenities and landscape, as part of our heritage and as a major resource for people;
- Develop the potential of Co. Laois as an Outdoor Activity Hub.

**Laois Local Economic and Community Plan 2016-2021**

The purpose of the Local Economic and Community Plan (LECP), as provided for in the Local Government Reform Act 2014, was to set out, for a six-year period, the objectives and actions needed to promote and support the economic development and the local and community development of the relevant local authority area, both by itself directly and in partnership with other economic and community development stakeholders.

The overall vision of the LECP is to focus on and support the needs of individuals in local society that might tend to face aspects of social exclusion.

Laois Local Economic and Community Plan 2016-2021 (LECP) is driven by the Local Community Development Committee and incorporates the Healthy Ireland themed actions to be delivered at local government level within the suite of 10 High Level Goals.

Of the ten goals set in the LECP, Goal 7 - "Cultivate a Strong County Identity and an Excellent Quality of Life" is a key goal to which this Plan aligns itself.

In general, Laois offers a good quality of life, though deficits in social infrastructure and social services exist in places and need attention. Raising quality of life by supporting a vibrant cultural sector, improving the quality of the public realm and built environment as well as providing opportunities for healthy lifestyles is also important.
Specific actions within the LECP have been devised to recognise particular themes of Healthy Ireland:

- Promote Vicarstown area and Portarlington Leisure Centre as activity hubs along the Barrow Way;
- Organise the Annual Barrow Awards open to community groups and clubs, to raise the local profile of the Barrow River and Barrow Line as a natural heritage, recreational and tourism asset;
- Undertake the feasibility study of the potential to establish an Indoor Centre of Excellence for Disability Sports in Laois;
- Upskill volunteers engaged in sport, leisure and recreation sector e.g. Paws Programme (aquatic), Community Coaching Programme, Outdoor Recreation Leader Training Programme, Coach Education, Go for Life Programme, Child Protection Programme;
- Work in partnership with community groups to seek funding under the Sports Capital Grant/Rural Recreation Fund/other relevant funding streams to improve sporting and recreational facilities in Co. Laois;
- Inform and support older adult groups in making funding applications such as the ‘Go For Life’ Grant Scheme.

Specific actions within the LECP have been devised to target specific and diverse groups in the promotion of health and physical activity:

- Work with local communities and key service providers, agree and implement a ‘Healthy Ireland’ Strategy in Laois based on ‘Healthy Ireland’ thematic areas. This will include (but not limited to) a particular focus on mental health, both identifying and addressing needs of specific communities and groupings of interest e.g., socio economically disadvantaged, older people, young people, ethnic minority communities, Travelling community, men, women, etc;
- Deliver sporting initiatives in Laois targeted at specific groups e.g. young people at risk, traveller men, socially disadvantaged, substance abusers, and older people;
- Deliver safe outdoor teen spaces for physical activity;
- Roll out Go for Life Programme in Laois to involve a greater number of older people in sport and physical activity;
- Promote social inclusion through sports and physical activity initiatives e.g. Games on the Green, Teen Time;
- Work in collaboration with key agencies and organisations to identify and address the needs of the local Travelling Community.
- Run the Sports Inclusion Disability Programme promoting participation in sport and physical activity among people with disabilities;
- Provide drugs and alcohol abuse services, i.e. drugs and alcohol assessment treatment, rehabilitation and support services for adults and under 18 years old concerned with their own or another person’s drug/alcohol use;
- Through community-led development, work with Laois Sports Partnership in devising and implementing a strategy for the use of sport in promoting inclusion targeting specific communities of interest such as older people, young people, ethnic minority communities, Travelling community, men, women: for example, Women in Sport, National Play Day, National Recreation Week, Active Parks, and Get Ireland Active.
Specific actions within the LECP have been devised to promote positive physical and mental health, wellbeing and physical activity:

- Provide accessible information on sports, clubs, activity courses and sporting events in Laois through social media and publications;
- Deliver ‘Laois Connects’ Positive Mental Health Event and investigate innovative and educational ways of engaging communities in activities to maximise the impact and scope of the event;
- Continue to maintain a high standard of service and facilities in Laois’ public leisure centres, public playgrounds, outdoor gyms and multi-use game areas;
- Appoint Walking Facilitator to work with communities throughout Laois to form walking groups;
- Provide a comprehensive range of community health services.

The Healthy Laois Plan is designed to integrate fully with the Laois LECP. This document provides the strategic framework within which the Healthy Laois Plan has been constructed, ensuring that it is compatible with the whole of local government approach that underpins the statutory LECP.

Key Local Policies and Initiatives

Other key local policies and initiatives are taken account of in the preparation of this Healthy Laois Plan. These policies are summarised in Appendix 1.
SECTION B

A PROFILE OF LAOIS AT A GLANCE
2016 Statistics at a Glance

**Total Population 2016**

84,697

**2011-2016 Population Increase**

Co. Laois +5%

State +3.3%

**Gender Distribution**

49.5% Females

50.5% Males

**Young Population**

25% of the population of Co. Laois is aged under 15

21% of the State’s population is aged under 15

**Education**

5 DEIS Primary Schools

2 DEIS Post-Primary Schools

**Households in 2016**

2016 Households = 28,997

10% Pre-School Families

14% Early School Families

13% Pre-Adolescent Families

13% Adolescent Families

**Portlaoise**

26% of the population of Co. Laois live in Portlaoise

Portlaoise is the sixteenth largest town in the Ireland

**Portarlington**

1,402 Lone Mother Families with Children under 15 Years of Age

121 Lone Father Families with Children under 15 Years of Age

243 Portarlington is the fiftieth largest town in the Ireland

Mountmellick Urban
Doonane
Rathdowney
Dangans

11,393 Persons in 2016 with a disability

8% (6,611) of the total population of Laois in 2016 lived in Disadvantaged ED’s

Total Population with a disability

8% (6,611) of the total population of Laois in 2016 lived in Disadvantaged ED’s

5.7 per 1,000 of the population in Laois are registered with an intellectual disability

National registration for intellectual disability is 6.3 per 1,000 of the population

1,109 Births in 2016
656 Births within Marriage
453 Births outside of Marriage

1,451 Male Carers
2,130 Female Carers

32.1 Average Age of Mother in Co. Laois
30.0 Average Age of First Time Mother in Co. Laois
SECTION C
VISION

All people of Laois will enjoy physical and mental health and wellbeing to their full potential. Through a series of partnerships and cross-sectoral cooperation, health and wellbeing is valued and supported at every level of society and is everyone’s responsibility. Health and wellbeing for all will be improved and health inequalities reduced no matter what their age, gender, ability, geographic location or economic circumstances.

Laois Local Community Development Committee intends to realise the vision for the healthy county by inspiring and empowering the community at large to become healthier. We will work with families, and communities, and recognise the need to support both mind and body. The focus will be on improving health and wellness by promoting healthy lifestyles and building health-related community partnerships.

CONSULTATION

To gain an understanding of the wellbeing resources and related local issues, a public consultation process was embarked upon. Laois Public Participation Network held an event on 20th March 2018, at which one-to-one consultation was undertaken, together with the distribution of questionnaires. The research was designed to provide information on the community’s physical/sporting and wellbeing activity, as well as our assets in terms of programmes, organisations and agencies that deliver initiatives and activities in this area. In addition to acknowledging the skills and capacities within the local community, it was undertaken to ascertain the capacity to deliver prospective Healthy Laois initiatives.

Feedback from the consultation process can be seen in Appendix 2.
The Healthy Laois Plan has been developed with reference to a lifecycle approach. This approach captures under the general Healthy Ireland Framework themes, places objectives within the family envelope, e.g., Children and Youth, Teenagers and Young Adults, Ageing Well, thus recognising that maximum coherence across the age cohorts and differing communities that make up life in Co. Laois.

Health inequalities are the differences in health between sections of the population that can occur as a result of differences in social and educational opportunities, financial resources, housing conditions, nutrition, work patterns or conditions, and unequal access to health services. This means that the chances of a long and healthy life are not the same for everyone.
KEY OBJECTIVES

- Healthy Childhood: That every child in Laois is nurtured and developed to be healthy in body and mind.
- Teens/Young Adults: That young people are supported to develop and maintain their mental and physical health.
- Live Well, Age Well: That we are all supported to maintain a healthy and happy lifestyle, regardless of age or ability.
- Community Engagement/Promotion & Awareness: That healthy living and well being in our community is promoted and prioritised.

The Healthy Laois Plan will seek to offer complimentary support to the range of supports already being implemented in Laois and will endeavour to increase collaboration of partners and eliminate duplication in that regard.
SECTION D

Laois Local Community Development (LCDC) is responsible for monitoring the delivery of the objectives in the Healthy Laois Plan and reporting this regard.

The LCDC will establish a Healthy Laois Team, which will comprise the LCDC Healthy Ireland subcommittee members and partners named in the delivery of this plan. This Team will drive and ensure delivery of the Plan objectives over the 3 year period.

The Healthy Laois Team will ensure periodic reporting in relation to the progress of the Plan and any funding opportunities that become available to realise the actions within.

**HEALTHY LAOIS TEAM MEMBER ORGANISATIONS:**

- Laois LCDC (Healthy Ireland Subcommittee members)
- Laois County Council
- Laois Public Participation Network
- HSE Health Promotion and Improvement
- HSE Resource Office for Suicide Prevention
- Laois Sports Partnership
- Youth Work Ireland Laois
- TUSLA Family Resource Centre
- Laois Partnership Company
APPENDIX 1 – LOCAL POLICIES

The following local policies, plans and programmes have informed the development of the Healthy Laois Plan in terms of ensuring non duplication and supporting the work already ongoing in this area.

APPENDIX 2 – CONSULTATION FEEDBACK

Consultation took place in a number of ways:
2. Targeted consultation with representatives of key agencies and organisations in Laois.

Feedback from consultation process:
• Continue to invest in and support the community sports hub concept
• Invest in outdoor gym equipment in local playgrounds
• Provide more integrated cycle lanes
• Find more ways to involve young people in physical activity
• Offer more physical activity options at community level
• Increase education and awareness about mental health
• Those who want/need to have their say about mental health issues must be able to do so
• Recommend organisation of social events for people to meet
• Encourage a united approach to mental health and well being
• Invest in a “Drop in Centre” for young people suffering with mental health issues
• Families dealing with suicide need more assistance
• More visiting services for the elderly needed
• Provide audio recordings of local news
• Provide parenting courses and courses on basic cooking
• Promote the “Grow it Yourself” concept in schools
• Ensure support for carers
• Need programmes that will support both the individual and the family
• Provide relationship and sexual education for young adults with special needs
• Value Childcare practitioners and early educators
• Provide positive mental health programmes for younger children
• Support children and young people with special needs, with regard to physical and social activity
• PPN should play a leading role in enabling the voice of the disabled to be heard
• Provide support for families in crisis through substance abuse
• Enable more integration in our community
Other feedback was received in relation to healthcare services, which is beyond the scope of this consultation and plan parameters, but was forwarded for information purposes to the Health Services Executive.

Other comments referred to:

- Communication between existing services, in terms of reduction and prevention of addiction.
- Healthy weight concerns, in terms of lack of education in cooking skills and the need for further emphasis on home cooking and capacity building our young people in this regard.
- Concerns around social isolation, especially in our rural communities, and may be a contributing factor to poor mental health.
- The need for increased provision of services for young people experiencing anxiety and related mental health issues and the need to find preventative measures where possible in this regard.
