

Health Service Vending Machine Audit Tool BDS Ver 1 280220

Thank you for taking the time to complete the annual audit of local vending machines. Checking that vending machines comply with the HSE Vending Policy will help to ensure staff, patients and visitors are offered a range of sugar free drinks and snacks of less than 200 kcals. Use the product list on page 2 to cross check the contents of the machine selected for audit.

Only nuts, seeds and dried fruit listed on the product list can exceed 200kcals.

Sugar sweetened beverages (over 5g of added sugar) should not be stocked.

	Audit Question	Yes	No	N/A	Result
1	1 If the machine contains beverages, are at least 50% of them Still Water?				If No , the machine has failed the audit
Comments:					
2	2 Does the machine contain any sugar sweetened beverages? Please use the product list on page 2 to check the beverages. All beverages on the product list provided are acceptable. If unsure, comment below.				If Yes , the machine has failed the audit
Comments:					
3	3 Does the machine contain a maximum of 3 slots containing the following: Packets of nuts or seeds that are plain and unsalted, dried fruit, or packets containing some or all of these products?				If No , the machine has failed the audit
Comments:					
4	4 Excluding the products listed in question 3, are the majority (more than half) of snack foods in the machine from the Green List of products given on page 2, i.e. <150 cals?				If No , the machine has failed the audit
Comments:					
5	5 Pick one row of snack foods in the machine. Are the calories displayed on this row correct?				If No , the machine has failed the audit
Comments:					
6	6 Are there any products in the machine that are not on the product list provided?				See note 2 below
Comments:					

Note 1: Empty slots. If there are empty "sold out" slots in the machine at the time of the audit, assume that these have been filled correctly before being sold out.

Note 2: There may be products in the machine that are not on the list. Please contact your vending provider to get the product details. They are acceptable if they contain less than 200kcals.

Please give this audit to the manager who has contracted the services of the vending company. If the machine has failed the audit, the manager can contact the company (email this Audit Tool to BDS at info@vending.ie and request corrective action be taken. Scan or photograph this page before emailing if filled out by hand. Please re-audit in 6 weeks' time and email again to info@vending.ie If corrective action has not been taken, escalate the issue to the working group responsible for monitoring compliance with the vending policy (e.g. Healthy Ireland Committee).
