

HR and Payroll Self Service update

In April 2025, the HSE reached a major milestone with all statutory HSE areas now live on SAP HR and Payroll system.

"We are now paying 186,115 employees and pensioners, made up of 158,450 in the statutory HSE and 27,665 in non-HSE areas, through the SAP HR and Payroll System," says Bernard Gloster, CEO of the HSE. "The successful implementation of the SAP HR and Payroll solution throughout our entire organisation is an impressive accomplishment for the HSE. The effective use of consultation, engagement, teamwork and diverse support in this delivery process has driven real change. The introduction

of the solution has established a robust 'hire to retire' management system for HSE employees."

What is HR and Payroll Self Service?

This is an online tool that allows employees to view payslips, view or change personal information, submit leave and travel requests.

Managers use it to approve travel and leave as well as access a variety of reports.

HR and Payroll Self Service – how to get started

If you have yet to register, it only takes a few minutes. **Scan the QR code** and complete the instructions.
