

62 people living in our care in one of 6 lodges.

We are the largest home solely caring for people living with dementia.

Saint Joseph's Shankill Dedicated to Dementia Care

Medical Model of Care

Taking care of the physical heart

LITTLE MISS TASK-ORIENTED

Taking care of the emotional heart

meaningful care matters

Saint Joseph's Shankill Dedicated to Dementia Care

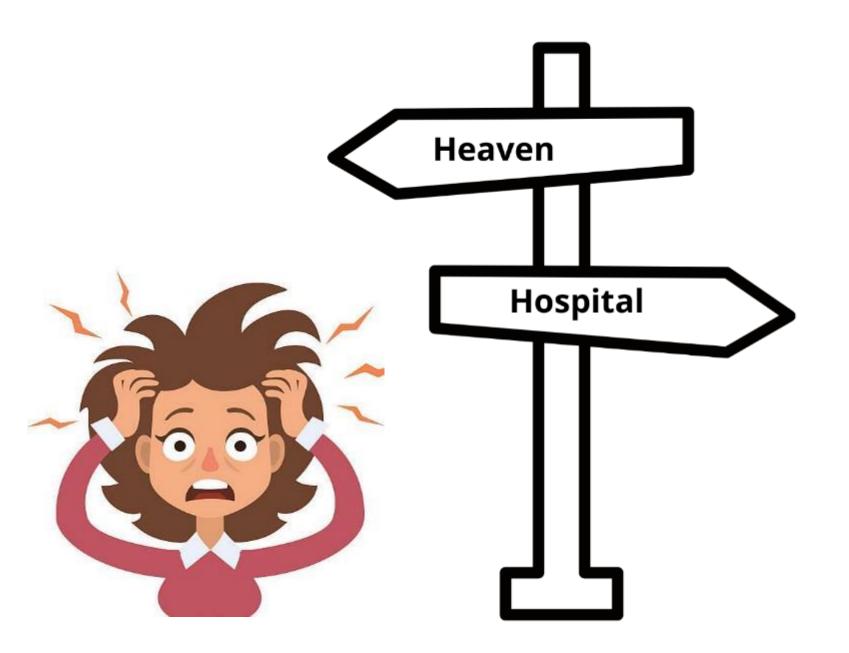

EARLY STAGE **STAGES** REPETAT EMOTION

ITY.

What would I like at the end of my life?

CEOL

Compassionate End of Life

Advanced care planning at Saint Joseph's Shankill;

- A. Full intervention full resuscitation, hospital etc.
- B. Moderate intervention usually NFR but hospital for IV antibiotics
- C. Comfort measures stay in Saint Joseph's and receive palliative care

Key workers build relationships

Owen's Care plan

I can longer use a knife and fork so please help me to eat my meals.

I love nature and being outside makes me feel really connected to the world around me.

I always enjoy a pint of Guinness watching the rugby on a Saturday afternoon.

Jackie's Care plan

I like my coffee strong and hot first thing in the morning, after that I drink tea (preferably in a china cup).

I always wear makeup and love to be dressed well and have my hair done.

My family are the most important people in my life, but I love an afternoon or night out with my girlfriends.

What would Owen want at the end of his life? What is important to Jackie now and at the end of her life?
