SUSTAIN & SPREAD

Share vision
Build belief system
Set clear aims & objectives
Invite others into your ward
Delegate, celebrate, believe
Engage entire community

Culture of learning
EMB agenda
Infrastructure to
resource QI

Patients as partners
Conversations
Informed decision making
Participation, Education and training

Visible Safety cross
Run charts
Outcome & process
Measures

Buddy
Listen & Share
Transparent inclusive communication
Reward champions
Document

Model for Improvement & PDSA
Reliable processes
Sustain & spread

Six questions - checklist

- Does everyone on the ward and in the hospital know what we are trying to achieve?
- Are we prioritising the improvements likely to prevent pressure ulcers and stopping those that have little impact?
- Is everyone clear about the means of securing improvement towards the prevention of ward acquired pressure ulcers?
- Are we able to measure and report progress on our aim?
- Do we know how and where to deploy resources when improvement is slower than required?
- Do we have a way of testing and innovating and then spreading new learning?

CELEBRATE National Event - Poster

Develop and present an academic poster to share your teams story of PUTZ

1.Submit Poster with a 300 -500 word abstract

Please submit an abstract and a copy of your poster with a 300 -500 word abstract to pressureulcerstozero@hse.ie before Wednesday Oct 25th 2017

2. Display Poster

Nominate a team member to collect and hang the poster on morning of National Event and to collect at the close of the event

5. Present Poster

Nominate a team member to present the poster (3 minutes)

Abstract

- Describe your ward and team
- **What** did you want to do? AIM (ward aim)
- **How** did you do it? (*examples might include:*
 - Staff engagement, Patient engagement
 - Model for Improvement & PDSA
 - SSKIN Bundle (specific changes)
 - Learning sessions , action, periods, resources
- Did you improve?
 - How do you know if the changes you were making were improvement? (safety cross, run charts, feedback, attitude)
- **Why** is this work important to your team?
- What next?

ONE KEY MESSAGE

Final Knowledge and Skill assessment

Self assessment of the level that the PUTZ (HOW) has improved participants' knowledge and understanding of pressure ulcer prevention and quality improvement
