

Pressure Ulcers to Zero Collaborative

Introduction to Phase 3

Learning Session One

Agenda

Time	Topic
08:45	REGISTRATION & team set up
09:30	Opening address
09:40	Introduction
10:30	Pressure Ulcers Part One
11:00	COFFEE
11:15	Pressure Ulcers Part Two
11:45	Hospital Experience
12:05	Quality Improvement
13:00	LUNCH
13.40	Staff experiences / stories
14:20	Engaging staff
15.20	COFFEE
15.30	Engaging staff - next steps
15:45	Teach back
16:00	Evaluation
16:15	Action period
16:30	CLOSE

Overview

- Why are we here
- Say hello to each other!
- Introduction to the PUTZ 3 collaborative
- Framework for Improving Quality
- Knowledge & Skills assessment

Meet the National PUTZ Team

#hello my name is...

Lorraine Murphy
National lead

#hello my name is...

Orlaith Branagan
PUTZ Coordinator

#hello my name is...

Catherine Hogan
PUTZ Facilitator

Meet DMLHG participating sites

ANMCH

St James Hospital

Naas General Hospital

Midlands Regional Hospital Portlaoise

Midlands Regional Hospital Tullamore

Everyone is talking about PUTZ

Starting with the 'Why'

Why = The Purpose

What is your cause? What do you believe?

How = The Process

Specific actions taken to realize the Why.

What = The Result

What do you do? The result of Why. Proof.

Simon Sinek Available at :

https://www.ted.com/talks/simon_sinek_how_great_leaders_inspire_action

One Story

‘My husband was admitted to Hospital in January with a suspected stroke. A few days later he had a bypass, during this he developed a clot which blocked the blood flow to his left leg, this resulted in an amputation’.

‘While being removed from the theatre bed he developed a small sore on his buttock, this developed into a pressure sore and now three months later he has no skin on either buttock’.

‘Now I think only a miracle can save my husband’.

(A Family members story, 2016)

The Why? The purpose, the cause

- Key marker of quality care
- Key safety priority – high incidence and prevalence within our healthcare system
- High impact on
 - Patients
 - Families
 - Team caring for the patient

Why ? – the Human cost

(Langemo 2000; Fox 2002; Franks et al 2002; Hopkins et al 2006; Gorecki et al 2009)

The 'How'

Specific actions

Why = The Purpose

What is your cause? What do you believe?

How = The Process

Specific actions taken to realize the Why.

What = The Result

What do you do? The result of Why. Proof.

The How....

Subject Matter Knowledge

Improvement Science

PUTZ QID
Team

Combine for Improvement

Improvement:

Learn to combine Subject Matter Knowledge and Improvement Science in creative ways to develop effective changes for improvement.

SSKIN CARE BUNDLE COMMUNICATION CHART

Risk Assessed using Waterlow and clinical judgement

Waterlow Score _____

SSKIN 2 hourly ☐ SSKIN 4 hourly ☐ RGN Signature: _____

RGN Signature:

Addressograph

[illegible]

RED SKIN - RELIEVE PRESSURE - REVERSE DAMAGE

SSKIN Bundle

SSKIN Bundle	
SURFACE	Has the person got the correct surface and surface supports?
SKIN INSPECTION	What is the integrity status? Have high risk areas been checked?
KEEP PATIENTS MOVING	Has the person been encouraged to move independently or with assistance?
INCONTINENCE / MOISTURE	Does the person require assistance with toileting or require incontinent barriers?
NUTRITION / HYDRATION	Is their diet/fluid intake adequate to prevent skin breakdown? Are oral supplements required and being used?

Defines and ties together best practices in pressure ulcer prevention

The 'What'

The result of why, the proof the outcome

Why = The Purpose

What is your cause? What do you believe?

How = The Process

Specific actions taken to realize the Why.

What = The Result

What do you do? The result of Why. Proof.

Collaborative Aim Statement

“Reduce the number of hospital (ward) acquired pressure ulcers by 50% across participating teams in SSWHG and DMLHG within a six month timeframe and sustained by 28th February 2018”

PUTZ3 Baseline Ward acquired Pressure Ulcers

What PUTZ 3 team will try to do?

- Influence mind-sets – pressure ulcer prevention is everyone's business
- Share tools and techniques
- Build confidence
- Build better working environments
- Improve patient outcomes

It matters:

Why = The Purpose

What is your cause? What do you believe?

How = The Process

Specific actions taken to realize the Why.

What = The Result

What do you do? The result of Why. Proof.

Meet someone new - form a trio!!! speed networking!

- Name
- Where you are from
- What you enjoy most about your role
- In two sentences max: WHY you are here

Collaborative Rules

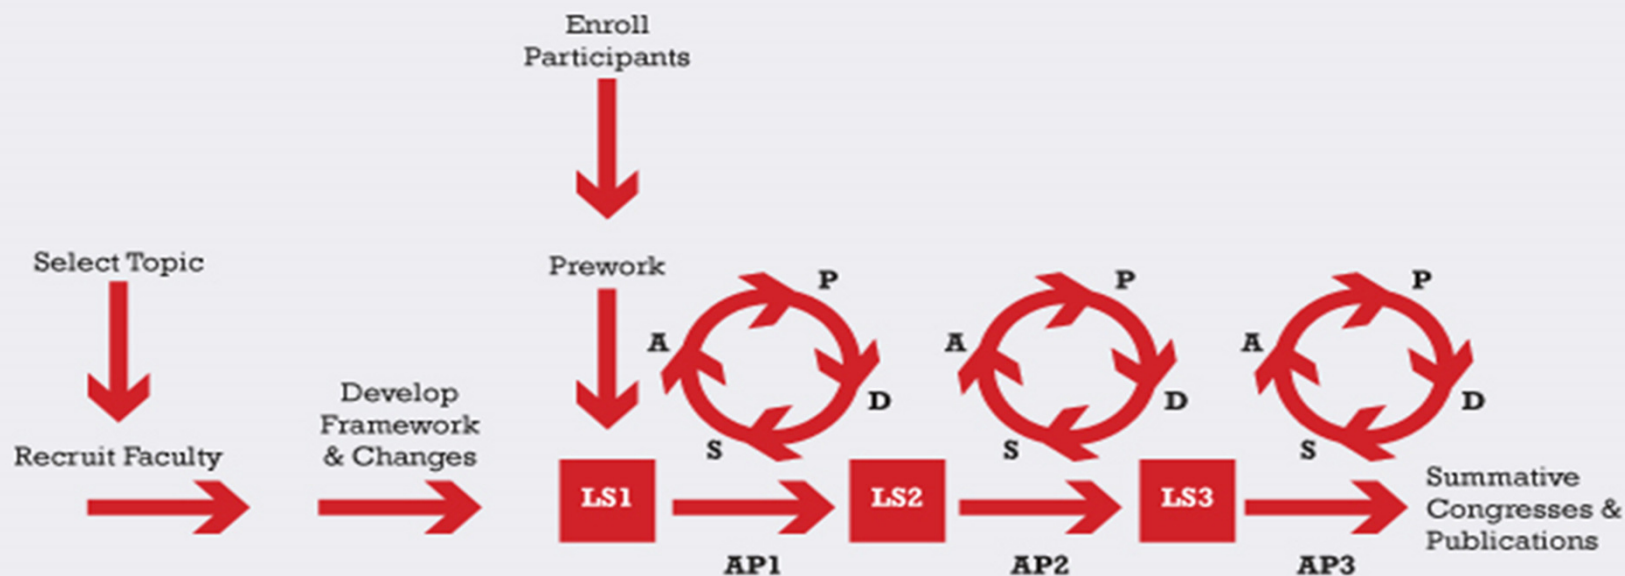

- Don't be too hard on yourself – you don't know what you don't know
- Keep an open mind
- “Everyone you will ever meet knows something that you don't”

Bill Nye

PUTZ Phase 3 Timelines

Benefits of Collaboratives

Patients:

Improve experiences and outcomes

Staff:

Increase job satisfaction

Develop competence and confidence

Organisation:

Increase multidisciplinary/multisite relationships and

Influence culture

What is the PUTZ collaborative?

- National safety programme
- Commenced in 2014 (former DNE region)
- Quality improvement methodology
- Phase 3 focus on acute services

Phase 1 (2015): 73 % Reduction in avoidable Pressure Ulcers

Phase 2 (2016): 49 % Reduction in avoidable Pressure Ulcers

Participant Evaluation Phase 2 (Preliminary findings)

What worked well	Challenges	Mixed opinions	Ideas to improve
<p>Sharing the learning</p> <p>MDT (& HCA) participation</p> <p>SSKIN bundle (fit for purpose)</p> <p>Measurement</p> <p>Site visits</p>	<p>Implementation of SSKIN bundle in clinical areas</p> <p>Gaining support for change</p> <p>Maintaining momentum</p> <p>Sustainability & Spread</p>	<p>QI methodology</p> <p>CHO & Acute sector mix</p>	<p>Increase support with Pre-work</p> <p>More physiology sessions</p> <p>Increase Pre-session communication</p> <p>More HCAs on MDTs</p> <p>Sustainability & Spread</p> <p>Access to local QI mentors</p>

PUTZ3 Objectives

**Pathophysiology/Aetiology
Pressure Ulcer Prevention**

**Framework for Improving
Quality to build a culture
of continuous
improvement of quality
of care**

Quality Improvement ...

what we do every day

Quality improvement (QI) is the combined and unceasing efforts of everyone - healthcare professionals, patients and their families, researchers, commissioners, providers and educators - to make the changes that will lead to:

- better patient outcomes
- better experience of care
- continued development and supporting of staff in delivering quality care

HSE. (2016). Framework for Improving Quality in our Health Service

Swensen, S., Pugh, M., McMullan, C., & Kabcenell, A. (2013). High-impact leadership: improve care, improve the health of populations, and reduce costs. IHI White Paper. Cambridge, Massachusetts: Institute for Healthcare Improvement

Framework for Improving quality

Six critical success factors that work together to support the creation of a culture of quality care that continuously seeks to improve

Leadership for quality

- Shared vision
- Building values, beliefs and norms
- Setting clear prioritised aims, objectives and expected outcomes
- Building and supporting clinical leadership
- Engaging with patients
- Committing resources

Person & Family Engagement

- Patients as partners
- Caring with dignity, respect and kindness
- Co-ordinated care
- Knowledge, skills & confidence to make informed decisions
- Participate in service design and delivery of care
- Creating environments that engage with patients

Staff engagement

- Listening, valuing and acknowledging staffs' unique contributions
- Involved in decision making and creative problem solving
- Supporting teamwork
- Health and wellbeing of staff
- Continuous learning and development
- Providing coaching and mentoring

Use of Improvement Methods

- Use of an agreed set of improvement methodologies
- Building improvement knowledge & skills
- Small scale tests of change
- Prioritising implementation of proven solutions
- Reducing variation
- Understanding context when testing, scaling and spreading improvements

Measurement for Quality

- Measure patient experience and outcomes
- Measure only what matters
- Being smart in how we measure
- Seek transparency
- Building capability
- Building data collection into routine work

Governance for Quality

- Knowledge and skills to drive quality care
- Accountability for quality & safety
- Use of information to monitor and oversee quality
- Promote a culture of learning
- Strong board relationships that partner with patients & staff around the quality of care
- Quality improvement plan

Knowledge and Skill development

Why

Build confidence & competence to support pressure ulcer prevention

How

- Learning sessions
- Resources
- Action periods
- Site visits
- Public awareness

What

Self assessment of the level that the PUTZ (HOW) has improved participants' knowledge and understanding of pressure ulcer prevention and quality improvement

Assessment scales

No experience 0	Knowledge 1	Comprehension 2	Application Skill 3	Analysis 4	Evaluate 5
You have no experience of/ or understanding of the concept, method or tool	You can identify/ define what the concept, method or tool is	You can explain or illustrate the concept, method or tool	You can apply or consider the concept, method or tool in identified situations	You can analyse and /or interpret the concept, method or tool	You can evaluate or appraise the outcome after using the concept, method or tool

Self –assessment

At each statement enter the score that best reflects the stage you are at:

Care to be considered for each component of SSKIN bundle”	
I have no experience of/ or understanding of the care to be considered for each component of SSKIN bundle	0
I can identify/define the care to be considered for each component of SSKIN bundle	1
I can explain or illustrate the care to be considered for each component of SSKIN bundle	2
I can apply or consider the care to be considered for each component of SSKIN bundle	3
I can analyse and interpret the care to be considered for each component of SSKIN bundle	4
I can evaluate or appraise the care to be considered for each component of SSKIN bundle	5
