

PRESSURE ULCERS TO ZERO COLLABORATIVE PHASE 3

STAFF ENGAGEMENT TELECONFERENCE CLINIC

16TH & 17 AUGUST 2017

The purpose of this form is to maintain anonymity and to promote honest discussion of the key staff engagement challenges that PUTZ team members are experiencing on their wards. Managing human factors is the most complex and challenging aspect of any change process and it is because of this that we want to respect that whilst you may want an issue to be discussed, you may wish to do so in a confidential way.

Please submit queries and challenges that you would like the hosts to review and discuss at the teleconference. Identifying information will not be shared with any persons or organisations outside of the QID PUTZ3 faculty. To protect your interests and those of fellow team members and the initiative PUTZ facilitators may follow up directly with you. Please submit queries/questions before 5 pm on Friday 5th August 2017 to

pressureulcerstozero@hse.ie *Thank you*
