Q-EXCHANGE: VOTING

1 project shortlisted from Ireland!

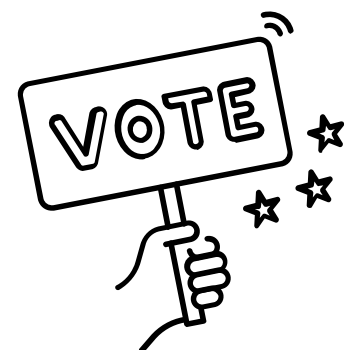

Regional Integration and collaboration for daily improvement in Ophthalmology services:

- Implementing a Daily Management System in the North East Regional Integrated Eye Care Service to support cross-organisational teams (14 sites), to deliver improved patient access to integrated eye care services.

“ Work on ophthalmology patient care pathways (2021 to date) has already evidenced a 52% decrease in adult ophthalmology waiting lists and a reduction of 50% in wait time for surgery. ”

Voting open from 23 May to 6 June!

Remember to vote and show your support
