RENAL

Epidemiology of ESKD in Ireland

Data from 2012 Census

HSE National Renal Office

Methodology

- NRO Annual Census on 31st December
- Standardised data collection instrument
- Not patient-linked
- No external validation
- Death/modality transfer not collected
- Area of residence of TX patients not collected
- Retrospective adjustment of location of TX patients
- Cross-checking with Beaumont Renal Transplant Registry
- Improved retrospective transplant recipient identification

Caveat re Prevalent Transplant Numbers

- We exercise caution every year regarding how exact this figure can be
- These patients are more mobile; may attend at more than one site for follow-up
- We continuously revise the figures from previous years, based on updated data
- We believe that we are more exact with each successive year

- The KDCPMS should make this much more precise in future

Renal Replacement Therapies (RRT)

- Transplant (TX)
- Haemodialysis (HD)
 - Centre HD (cHD)
 - Satellite HD (sHD)
 - Contracted Satellite HD (sHDc)
 - Other HD (oHD)
 - Northern Ireland HD (NI)
- Home Dialysis (PD/HHD)
