

# We want to make sure our health services are right for everyone

To do this, we ask everyone the following:

**Ethnic Group\***

**Religion**

**Country of Birth**

**Language**

**Nationality**

Each of these factors can have an effect on a person's health. Everyone here is being asked the same questions.

\*An Ethnic group is a group of people set apart and bound together by common ties of race, language, nationality, culture or shared history/ancestry
