It's very important to keep taking your medicine during this time. If you run out of medicine:

- Ring your GP or community mental health team and they will send you your prescription to the chemist so you can pick it up.
- If you need to cocoon or self-isolate, you can ask your family to get your medicine for you. Just remember to ask them to leave it on the doorstep.
- If you don't have family around, there are other community supports available. You can find out more information from your:
  - Local Traveller organisation and Traveller Primary Health Care Project
  - Community Response Forums through your local authority
