

Recall of disposable e-cigarette

Brand Name: McKesse MK Bar 7000

Date: November 2025

Summary of Recall

Alert Notification: The label on this product stated 'no nicotine'. Nicotine was not declared in the list of ingredients. The results of analysis indicated the nicotine concentration was from 19.5mg/ml to greater than 30.0mg/ml.

In view of the fact that nicotine is a toxic substance and considering the potential health and safety risks, including to persons for whom the product is not intended nicotine-containing liquid should only be placed on the market in electronic cigarettes that meet certain safety and quality requirements. The labelling and packaging of these products should display sufficient and appropriate information on their safe use, in order to protect human health and safety and should not include any misleading elements or features.

The volume also exceeded the permitted limit which is set in legislation at 2ml.

ⁱAcute exposure to high amounts of inhaled nicotine may cause dizziness, nausea, or vomiting. Nicotine is acutely toxic and can endanger the user's safety if the product comes into contact with the skin or is ingested.
