

## Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak

This medicine protocol is a specific written instruction for the administration of Nimenrix (MenACWY) vaccine to Refugees and Applicants Seeking Protection in Ireland (hereafter referred to as vaccine recipients) and in the event of an outbreak as advised by public health, by registered nurses and registered midwives. This medicine protocol is valid for the 2023/2024 Health Service Executive (HSE) Schools Immunisation Programme (SIP) and National Immunisation Advisory Committee (NIAC) catch up Immunisation Programme and in the event of an outbreak as advised by public health.

This medicine protocol enables registered nurses and registered midwives employed in the voluntary and statutory services of the HSE including Mass vaccination clinics who have undertaken the required education and training programmes to administer Nimenrix (MenACWY) vaccine with reference to and guidance from Nursing & Midwifery Board of Ireland (NMBI), National Immunisation Advisory Committee (NIAC), National Immunisation Office (NIO), HSE and in accordance with the Summary of Product Characteristics (SmPC) for Nimenrix (MenACWY) vaccine as detailed by the European Medicines Agency (EMA) at [www.ema.ie](http://www.ema.ie)

The Nursing and Midwifery Board of Ireland defines medicine protocols as “written directions that allow for the supply and administration of a named medicinal product by a nurse or midwife in identified clinical situations. A medicine protocol involves the authorisation of the nurse/midwife to supply and administer a medicine to groups of patients in a defined situation meeting specific criteria and who may not be individually identified before presentation for treatment. An individually named prescription is not required for the supply and administration of medication when a medication protocol is in effect” (An Bord Altranais, 2007).

<b>Document reference number</b>	NIO 2023
<b>1.0 Critical elements</b>	
<b>Name of Organisation where medicine protocol applies</b>	Health Service Providers/COVID-19 Central Vaccination Centres (CVCs) across the voluntary and statutory services of the HSE. This Medicine Protocol applies to: <ul style="list-style-type: none"><li>• registered nurses and registered midwives employed in the voluntary and statutory services of the HSE including Mass vaccination clinics , congregated settings, temporary clinics and mobile units</li></ul>
<b>Date the medicine protocol comes into effect</b>	December 2023
<b>Date for review of medicine protocol</b>	December 2024
<b>Document prepared by</b>	National Immunisation Office (NIO) in collaboration with the Office of the Nursing and Midwifery Services Director (ONMSD) HSE.
<b>Names and Signatures of the employing authority who is authorising the implementation of the medicine protocol</b>  <i>“On behalf of the authority employing professionals authorised to administer under this medicine protocol, I have read this medicine protocol and authorise its implementation”</i>	Name: <b>Dr. Eamonn O’Moore</b> Director of National Health Protection   Signature: _____  Name: <b>Dr Colm Henry</b> , Chief Clinical Officer, HSE   Signature: _____  Name: <b>Dr Geraldine Shaw</b> , Nursing and Midwifery Services Director, HSE   Signature: _____

**Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak**

<b>2.0 Clinical Criteria</b>	
<b>Clinical condition for use of this medicine protocol</b>	The clinical condition for which this medicine protocol has been developed is for the active immunisation against and prevention of Meningococcal Group ACWY disease.
<b>Circumstances in which the medicine protocol applies</b>	To provide a Nimenrix (MenACWY) vaccine to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak (hereafter referred to as vaccine recipients).
<b>Inclusion criteria for vaccine recipients receiving Nimenrix (MenACWY) vaccine under the medicine protocol</b>	<p>For those aged 12-13 years, as part of the adolescent booster programme. The Nimenrix (MenACWY) vaccine is usually given to first year students in second level schools and age equivalent in special schools and home schooled students.</p> <p><b>Note:</b> If Men C vaccine has recently been received, defer Nimenrix (MenACWY) vaccine until at least 2 months after Men C vaccine.</p> <p><b>For outbreak response:</b> As advised by public health</p> <p><b>Precaution</b></p> <ul style="list-style-type: none"><li>• Acute severe febrile illness, defer until recovery</li></ul>

**Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak**

	<p><b>Note:</b> The presence of a minor infection such as a mild upper respiratory infection or low grade fever is not a contraindication to immunisation.</p> <p><b>Note:</b> COVID-19 vaccines (except for COVID-19 vaccine given to children aged 6 months 4 years where a 14-day interval is recommended) and other vaccines may be administered at the same time or at any interval.</p>
<b>Exclusion criteria for vaccine recipients receiving Nimenrix (MenACWY) vaccine under this medicine protocol</b>	<p>Anaphylaxis to any of the vaccine constituents</p> <p>Already received a dose of conjugated MenACWY vaccine at the age of 10 years or older.</p>
<b>Actions to be taken for those who are excluded from the medicine protocol</b>	<p>All recipients meeting exclusion criteria must be referred to the medical practitioner for an individual assessment, except where excluded due to prior receipt of Conjugated Men ACWY vaccine at 10 years or older - who therefore do not require further vaccination.</p> <ul style="list-style-type: none"><li>• Document action in clinical notes</li><li>• Where Nimenrix (MenACWY) vaccine is prescribed following medical assessment, the nurse or midwife may administer Nimenrix (MenACWY) vaccine within their scope of practice.</li></ul> <p><b>Note:</b> In determining their scope of practice, nurses and midwives must make judgements about their competency to carry out a role or activity (NMBI, 2015).</p>
<b>Description of circumstances and referral arrangements when further advice or consultation is required</b>	<p>Discuss the recipient with the Medical Practitioner or clinical lead in the event of:</p> <ul style="list-style-type: none"><li>• Previous adverse reaction</li><li>• Other clinical concerns</li></ul>

**Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak**

<p><b>Documentation required for the implementation of this medicine protocol</b></p>	<p>A consent form must be completed by the parent /legal guardian for children who receive the Nimenrix (MenACWY) vaccine, once understood and translation of consent is undertaken with support of translator if required.</p> <p>Relevant details including the batch number must be recorded on the consent form.</p> <p>The following documents will be required at each vaccination session:</p> <ul style="list-style-type: none"><li>• Vaccination session form</li><li>• Blank vaccine consent forms</li><li>• Vaccine Information Leaflets</li><li>• Patient held record cards /Vaccine passport</li><li>• HPRA Adverse Reaction Reporting forms</li><li>• HSE Incident/Near Miss report forms</li><li>• Post vaccination advice</li></ul> <p>It is the responsibility of each nurse or midwife to be familiar with the appropriate documentation to support the safe administration of Nimenrix (MenACWY) vaccine which includes the following:</p> <ul style="list-style-type: none"><li>• Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak</li><li>• NIAC (2023) <i>Anaphylaxis: Immediate Management in the Community</i> available at: <a href="https://rcpi.access.preservica.com/uncategorized/IO_a36f9e4b-4c80-432d-8264-546089359925/">https://rcpi.access.preservica.com/uncategorized/IO_a36f9e4b-4c80-432d-8264-546089359925/</a></li></ul>
<p><b>3.0 Name of Medicine</b></p>	<p>Nimenrix (MenACWY)</p> <p><b>Dose:</b> 0.5ml</p> <p><b>Route:</b> Intramuscular injection</p> <p><b>Site:</b> Deltoid muscle (Right arm recommended)</p> <p><b>Note: Vaccine must be reconstituted</b></p>
<p><b>Link to Medicine</b> Details of product information and other data including instructions for supply and administration is available from the EMA at <a href="http://www.ema.europa.eu">www.ema.europa.eu</a> and HPRA at <a href="http://www.hpra.ie">www.hpra.ie</a></p>	<p><b>Link to Summary of Product Characteristics:</b> <a href="https://www.ema.europa.eu/en/documents/product-information/nimenrix-epar-product-information_en.pdf">https://www.ema.europa.eu/en/documents/product-information/nimenrix-epar-product-information_en.pdf</a></p> <p><b>Link to Patient Information Leaflet:</b> <a href="https://www.hpra.ie/docs/default-source/vaccine-pils/nimenrix-pil.pdf?sfvrsn=8">https://www.hpra.ie/docs/default-source/vaccine-pils/nimenrix-pil.pdf?sfvrsn=8</a></p>

**Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak**

<p><b>Procedure for reporting and documentation of errors and near misses involving the medicine</b></p>	<p>In the case of medicine errors that directly involve the vaccine recipient, i.e. wrong medicine/patient/dose/route being administered or another medicine error, the registered nurse or registered midwife must remain with the vaccine recipient and closely monitor them for any adverse reactions.</p> <p>Vital signs should be recorded and the vaccine recipient should be reviewed by the registered nurse/midwife and/or medical practitioner.</p> <p>The incident must be reported to the relevant line manager as soon as possible. The incident and all actions taken must be promptly recorded in the recipient's documentation/notes and the relevant National Incident Management Report Form completed: <a href="https://www.hse.ie/eng/about/who/nqpsd/qps-incident-management/nims/nirf-01-v12-person-interactive.pdf">https://www.hse.ie/eng/about/who/nqpsd/qps-incident-management/nims/nirf-01-v12-person-interactive.pdf</a></p> <p>For children, the child's parent and/or legal guardian must be informed of the incident.</p> <p>Any suspected adverse reactions associated with medicine errors should be reported to the HPRA as outlined below.</p> <p>Any errors and near misses not involving medication e.g. needle stick injuries, the incident and all actions taken must be promptly recorded on the relevant National Incident Management Report form and forwarded to the relevant line manager as per local policy. Refer to 'EMI Tool Kit' (<a href="https://www.hpsc.ie/a-z/EMIToolkit/">https://www.hpsc.ie/a-z/EMIToolkit/</a>)</p>
<p><b>Procedure for reporting Adverse Drug Reactions to the HPRA</b></p>	<p>The relevant nursing or midwifery staff should report to the HPRA any suspected adverse reactions, in accordance with criteria outlined by the HPRA. This reporting may be carried out online at <a href="https://www.hpra.ie">https://www.hpra.ie</a> or through use of the yellow card system which is available in the downloadable format from the HPRA website, or on request from the HPRA.</p>
<p><b>Resources and equipment required for the administration of Nimenrix (MenACWY) vaccine</b></p>	<ul style="list-style-type: none"><li>• Nimenrix (MenACWY) vaccine</li><li>• Fridge/cool box with minimum/maximum temperature recording device to monitor the cold chain temperature (between +2°C and +8°C)</li><li>• Disposable kidney dishes/coloured trays and covering</li><li>• Gauze swabs/Plasters</li><li>• Sharps bins and bags for disposal of healthcare risk and non-risk waste material</li><li>• Alcohol hand sanitizer</li><li>• Face masks</li><li>• Access to telephone</li><li>• Resuscitation equipment and drugs in accordance with the NIAC (2023) <i>Anaphylaxis: Immediate Management in the Community</i> available at: <a href="https://rcpi.access.preservica.com/uncategorized/IO_a36f9e4b-4c80-432d-8264-546089359925/">https://rcpi.access.preservica.com/uncategorized/IO_a36f9e4b-4c80-432d-8264-546089359925/</a></li><li>• Access to medical support</li><li>• Safe storage areas for medicines and equipment</li><li>• Current medicine protocol for Nimenrix (MenACWY) vaccine.</li></ul>
<p><b>Audit process to identify appropriate use of the protocol or unexpected outcomes</b></p>	<p>All documentation will be held for review and audit purposes as per local policy.</p>

**Medicine Protocol for the Administration of Nimenrix (MenACWY) vaccine by registered nurses and registered midwives to Refugees and Applicants Seeking Protection in Ireland and in the event of an outbreak**

<b>4.0 Information for vaccine recipient/parent/legal guardian</b>	
<b>Advice to be given to the vaccine recipient/parent/legal guardian before treatment</b>	Reiterate the information provided in the HSE patient information leaflet for the vaccine in the appropriate language and translator support if required.  For children, Patient Information Leaflet/Fact Sheet must be supplied with the consent form to each parent/legal guardian prior to administration of the vaccine as above.
<b>Advice to be given to the vaccine recipient/parent/legal guardian after treatment</b>	<b>After Treatment</b> The vaccine recipient must be advised to remain seated in the post vaccination observation area for 15 minutes to allow monitoring of any immediate reaction including possible anaphylactic reaction and must be advised to report any side effects to the registered nurse or registered midwife who is present.
<b>Details of any necessary follow-up, action and referral arrangements</b>	In the event of an adverse reaction, the nurse/midwife must ensure that all procedures are adhered to as outlined in Section 3.
<b>5.0 Staff authorised to use this medicine protocol</b>	
<b>Professional qualifications, training, and competence required prior to using this medicine protocol</b>	Registered nurse or registered midwife must have completed all of the following:  1) Be a Registered Nurse or Registered Midwife, on the active register maintained by the NMBI  2) <i>Immunisation Foundation Programme</i> accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a>  3) Education programme for nurses and midwives on <i>Primary Childhood Immunisation Programme</i> and any updates for nurses and midwives accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a>  4) Education programme for nurses and midwives on <i>Schools Immunisation Programme</i> and any updates for nurses and midwives accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a>  5) NIO education programme on <i>Catch up vaccination for Refugees and Applicants Seeking Protection in Ireland</i> accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a>  6) An approved <i>Basic Life Support for Health Care Providers Course</i> within the last two years (i.e. Irish Heart Foundation (IHF))  7) Initial <i>National Anaphylaxis Education Programme for Health Care Professionals</i> accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a> followed by a two hour classroom based skills workshop. Recertification is required every two years by completing the on-line <i>National Anaphylaxis Education Programme for Health Care Professionals</i> accessible on <a href="http://www.HSELand.ie">www.HSELand.ie</a>  8) The registered nurse/midwife must complete the Competency Self-Assessment Form to vaccinate* Refugees and Applicants Seeking Protection in Ireland *Health Service Executive (HSE) Primary Childhood Immunisation Programme (PCIP), Schools Immunisation Programmes (SIP) and the National Immunisation Advisory Committee (NIAC) Catch Up Immunisation Programme available at <a href="http://www.immunisation.ie">www.immunisation.ie</a>
