

**Medicine Protocol for the Administration of REVAXIS (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine (adsorbed, reduced antigen(s) content)) by registered nurses and registered midwives to refugees and applicants seeking protection in Ireland and in the event of an outbreak**

This medicine protocol is a specific written instruction for the administration of REVAXIS (Td/IPV), to refugees and applicants seeking protection in Ireland (hereafter referred to as vaccine recipients) and in the event of an outbreak by registered nurses and registered midwives. This medicine protocol is valid for the 2025/2026 Health Service Executive (HSE) Schools Immunisation Programme (SIP) and for National Immunisation Advisory Committee (NIAC) recommended catch up vaccination programme and in the event of an outbreak as advised by public health.

This medicine protocol enables registered nurses and registered midwives employed in the voluntary and statutory services of the HSE including HSE community vaccination clinics who have undertaken the required education and training programmes to administer REVAXIS (Td/IPV), with reference to and guidance from Nursing & Midwifery Board of Ireland (NMBI), National Immunisation Working Group, National Immunisation Advisory Committee (NIAC), National Immunisation Office (NIO), HSE and in accordance with the Summary of Product Characteristics (SmPC) for REVAXIS (Td/IPV) vaccine as detailed by the Health Products Regulatory Authority (HPRA) at [www.hpra.ie](http://www.hpra.ie)

The Nursing and Midwifery Board of Ireland defines medicine protocols as “written directions that allow for the supply and administration of a named medicinal product by a registered nurse or midwife in identified clinical situations. A medication protocol involves the authorisation of the nurse or midwife to supply and administer a medication to groups of patients in a defined situation meeting specific criteria and who may not be individually identified before presentation for treatment (An Bord Altranais, 2007, page 37).

<b>Document reference number</b>	Version4-NIO-TdIPV-November 2025
<b>1.0 Critical Elements</b>	
<b>Name of Organisation /Setting where medicine protocol applies</b>	Health Service Providers across the voluntary and statutory services of the HSE including HSE community vaccination clinics. This Medicine Protocol applies to: <ul style="list-style-type: none"><li>• registered nurses and registered midwives employed in the voluntary and statutory services of the HSE including HSE community vaccination clinics, congregated settings, temporary clinics and mobile units</li></ul>
<b>Date the medicine protocol comes into effect</b>	November 2025
<b>Date for review of medicine protocol</b>	November 2026
<b>Document prepared by</b>	HSE National Immunisation Office (NIO) in collaboration with the Office of the Nursing and Midwifery Services Director (ONMSD) HSE.
<b>Names and Signatures of the employing authority who is authorising the implementation of the medicine protocol</b>  <i>“On behalf of the authority employing professionals authorised to administer under this medicine protocol, I have read this medicine protocol and authorise its implementation”</i>	<p>Name: <b>Dr. Éamonn O'Moore</b>, Director of National Health Protection, HSE</p> <p></p> <p>Signature:</p> <p>Name: <b>Dr Colm Henry</b>, Chief Clinical Officer, HSE</p> <p></p> <p>Signature:</p> <p>Name: <b>Dr Geraldine Shaw</b>, Nursing and Midwifery Services Director, HSE</p> <p></p> <p>Signature: _____</p>

2.0 Clinical Criteria	
<b>Clinical condition for use of the medicine protocol</b>	The clinical condition for which this medicine protocol has been developed is for the active immunisation against and prevention of diphtheria, tetanus and poliomyelitis (polio) disease.
<b>Circumstances in which the medicine protocol applies</b>	To provide REVAXIS (Td/IPV) to vaccine recipients and in the event of an outbreak as advised by public health.
<b>Inclusion criteria for vaccine recipients receiving the REVAXIS (Td/IPV) (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine under this medicine protocol</b>	<p>For catch-up vaccine in those aged 10 years of age and older with no history of receipt of the recommended course of these antigens previously.</p> <ol style="list-style-type: none"> <li>1. First give a Tdap vaccine x1</li> <li>2. Followed by REVAXIS (Td/IPV) x 3 at ≥4 weeks apart (Leave a 4 week gap after Tdap vaccine)</li> </ol> <p><b>For outbreak response:</b> As advised by public health</p> <p><b>Precautions</b></p> <ul style="list-style-type: none"> <li>• Acute severe febrile illness, defer until recovery</li> <li>• Type III (Arthus) hypersensitivity reaction to a previous dose (see adverse reactions in NIAC chapter 6). Persons experiencing these reactions usually have very high serum diphtheria or tetanus antitoxin levels; they should not be given further routine or emergency booster doses of tetanus or diphtheria containing vaccines more frequently than every 10 years.</li> </ul> <p><b>Note:</b> COVID-19 vaccines and other vaccines may be administered at the same time or at any interval.</p>
<b>Exclusion criteria for vaccine recipients receiving the REVAXIS (Td/IPV) (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine under this medicine protocol</b>	<ul style="list-style-type: none"> <li>• A known history of anaphylactic or hypersensitivity reaction to REVAXIS (Td/IPV) or any of the vaccine's constituents.</li> </ul>
<b>Actions to be taken for those who are excluded from the medicine protocol</b>	<p>All vaccine recipients meeting exclusion criteria must be referred to the clinical lead for an individual clinical assessment.</p> <ul style="list-style-type: none"> <li>• Document action in clinical notes</li> <li>• Where REVAXIS (Td/IPV) is prescribed following clinical assessment, the registered nurse or midwife may administer REVAXIS (Td/IPV) within their scope of practice.</li> </ul> <p><b>Note:</b> In determining their scope of practice, registered nurses and midwives must make judgements about their competency to carry out a role or activity (NMBI, 2025).</p>
<b>Description of circumstances and referral arrangements when further advice or consultation is required</b>	<p>Discuss the vaccine recipient with the clinical lead in the event of:</p> <ul style="list-style-type: none"> <li>• Previous adverse reaction</li> <li>• Other clinical concerns</li> </ul>
<b>Documentation required for the implementation of this medicine protocol</b>	A consent form must be understood and completed by the parent/legal guardian for all children who receive the REVAXIS (Td/IPV) vaccine. Children aged 16 years and over consent on their own behalf, once understood and translation of consent is undertaken with support of translator if required. Appropriate details including the batch number must be recorded on the consent form.

**Medicine Protocol for the Administration of REVAXIS (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine (adsorbed, reduced antigen(s) content)) by registered nurses and registered midwives to refugees and applicants seeking protection in Ireland and in the event of an outbreak**

	<p>The following documents will be required at each vaccination session:</p> <ul style="list-style-type: none"> <li>• Vaccination session report form</li> <li>• Blank vaccine consent forms</li> <li>• Vaccine Information Leaflets</li> <li>• Patient held record cards/ vaccine passport</li> <li>• Post vaccination advice should be provided</li> </ul> <p>It is the responsibility of each registered nurse or midwife to be familiar with the appropriate documentation to support the safe administration of REVAXIS (Td/IPV) which includes the following:</p> <ul style="list-style-type: none"> <li>• This medicine protocol</li> <li>• NIAC (2023) <i>Anaphylaxis: Immediate Management in the Community</i> available at: <a href="https://www.higa.ie/reports-and-publications/niac-immunisation-guideline/anaphylaxis">https://www.higa.ie/reports-and-publications/niac-immunisation-guideline/anaphylaxis</a></li> </ul>
<b>3.0 Name of Medicine</b>	<p>REVAXIS, Suspension for injection in pre-filled syringe Diphtheria, tetanus and poliomyelitis (inactivated) vaccine (adsorbed, reduced antigen(s) content)</p> <p><b>Dose:</b> 0.5 ml</p> <p><b>Route:</b> Intramuscular injection</p> <p><b>Site:</b> Deltoid muscle</p>
<p><b>Link to Medicine</b></p> <p>Details of product information and other data including instructions for supply and administration is available from the HPRA at <a href="http://www.hpra.ie">www.hpra.ie</a></p>	<p><b>Link to Summary of Product Characteristics:</b> <a href="https://assets.hpra.ie/products/Human/30354/Licence_PA23458-005-001_06052025101846.pdf">https://assets.hpra.ie/products/Human/30354/Licence_PA23458-005-001_06052025101846.pdf</a></p> <p><b>Link to Patient Information Leaflet:</b> <a href="https://assets.hpra.ie/products/Human/30354/eb04ff08-2cf1-409d-b627-cd6d084beeab.pdf">https://assets.hpra.ie/products/Human/30354/eb04ff08-2cf1-409d-b627-cd6d084beeab.pdf</a></p>
<b>Procedure for the reporting and documentation of errors and near misses involving the vaccine</b>	<p>In the case of medicine errors that directly involve the vaccine recipient, i.e. wrong medicine/patient/dose/route being administered or another medicine error, the registered nurse or registered midwife must remain with the vaccine recipient and closely monitor them for any adverse reactions.</p> <p>Vital signs should be recorded, and the vaccine recipient should be reviewed by the registered nurse/midwife and/or medical practitioner.</p> <p>The incident must be reported to the relevant line manager as soon as possible. The incident and all actions taken must be promptly recorded in the recipient's documentation/notes and the relevant National Incident Management Report Form completed: <a href="https://www.hse.ie/eng/about/who/nqpsd/qps-incident-management/nims/nirf-01-v12-person-interactive.pdf">https://www.hse.ie/eng/about/who/nqpsd/qps-incident-management/nims/nirf-01-v12-person-interactive.pdf</a></p> <p>The child's parent and/or legal guardian must be informed of the incident.</p> <p>Any suspected adverse reactions associated with medicine errors should be reported to the HPRA as outlined below.</p> <p>Any errors and near misses not involving medications/not directly involving the vaccine recipient (Needle stick injuries etc.), the incident and all actions taken must be promptly recorded on the relevant National Incident Management Report Form and forwarded to the relevant line manager as per local policy. Refer to <a href="https://www.hpsc.ie/a-z/emi/algorithms/EMISharpsAlgo.pdf">https://www.hpsc.ie/a-z/emi/algorithms/EMISharpsAlgo.pdf</a></p>

**Medicine Protocol for the Administration of REVAXIS (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine (adsorbed, reduced antigen(s) content)) by registered nurses and registered midwives to refugees and applicants seeking protection in Ireland and in the event of an outbreak**

<b>Procedure for reporting Adverse Drug Reactions to the HPRA</b>	The relevant nursing or midwifery staff should report to the HPRA any suspected adverse reactions, in accordance with criteria outlined by the HPRA. This reporting may be carried out online at <a href="https://www.hpra.ie">https://www.hpra.ie</a>
<b>Resources and equipment required for the administration of REVAXIS (Td/IPV) (Diphtheria, tetanus and poliomyelitis (inactivated) vaccine</b>	<ul style="list-style-type: none"> <li>• REVAXIS (Td/IPV) vaccine</li> <li>• Fridge/cool box with minimum/maximum temperature recording device to monitor the cold chain temperature (between +2°C and +8°C)</li> <li>• Disposable kidney dishes/coloured trays</li> <li>• Gauze swabs/plasters</li> <li>• Sharps bins, and bags for disposal of healthcare risk and non-risk waste material</li> <li>• Alcohol hand sanitiser</li> <li>• Hand washing facilities</li> <li>• Access to telephone</li> <li>• Resuscitation equipment and drugs in accordance with the NIAC (2023) <i>Anaphylaxis: Immediate Management in the Community</i> available at: <a href="https://www.higa.ie/reports-and-publications/niac-immunisation-guideline/anaphylaxis">https://www.higa.ie/reports-and-publications/niac-immunisation-guideline/anaphylaxis</a></li> <li>• Safe storage areas for medicines and equipment</li> <li>• Current medicine protocol for REVAXIS (Td/IPV) vaccine.</li> </ul>
<b>Audit process to identify appropriate use of the medicine protocol or unexpected outcomes</b>	All documentation will be held for review and audit purposes as per local policy.
<b>4.0 Information for vaccine recipient/parent/legal guardian</b>	
<b>Advice to be given to the vaccine recipient before treatment</b>	For children, information <b>must</b> be supplied with the consent form to each parent/legal guardian prior to administration of the vaccine. Reiterate the information provided by the HSE and translator support if required.
<b>Advice to be given to the vaccine recipient after treatment</b>	<p>Individuals should be advised there may be increased reactogenicity due to the catch-up schedule of four tetanus containing vaccines in a short time</p> <p><b>After Treatment</b> The vaccine recipient must be advised to remain seated in the post vaccination observation area for 15 minutes to allow monitoring of any immediate reaction including possible anaphylactic reaction and must be advised to report any side effects to the registered nurse or registered midwife who is present.</p>
<b>Details of any necessary follow-up, action and referral arrangements</b>	In the event of an adverse reaction the nurse/midwife must ensure that all procedures are adhered to as outlined in Section 3.
<b>5.0 Staff authorised to use this medicine protocol</b>	
<b>Professional qualifications, training, and competence required prior to using this medicine protocol</b>	<p>Registered nurse or registered midwife must have completed all of the following:</p> <ol style="list-style-type: none"> <li>1) Be a Registered Nurse or Registered Midwife, on the active register maintained by the NMBI</li> <li>2) <i>Primary Childhood Immunisation Programme</i> accessible on <a href="http://www.HSeLanD.ie">www.HSeLanD.ie</a></li> <li>3) Education programme for nurses and midwives on <i>National Vaccination Education Programme for Registered Nurses/Midwives/Public Health Nurses: 2025/2026</i> and any updates for nurses and midwives accessible on</li> </ol>
