If you work in healthcare, you are at increased risk of being exposed to flu and COVID-19

✓ Vaccines are safe and effective and provide the best protection from flu and COVID-19.

✓ All healthcare workers are recommended a flu vaccine.

✓ Some healthcare workers are recommended a COVID-19 vaccine. Any healthcare worker who wants a COVID-19 vaccine can get one.

✓ Vaccines may be available at work and are also available free of charge from GPs and Pharmacies.

Visit the HSE website for vaccine information and resources

You can also get your vaccines at:

As a healthcare worker, you are at increased risk of being exposed to the flu
