

Flu Vaccine in Pregnancy

If you get flu when you are pregnant you can be very unwell

Flu can cause serious illness like pneumonia and bronchitis.

Flu can cause serious complications for your baby

Flu can cause premature birth, low birth weight and even stillbirth.

Flu vaccine protects you and your baby too

Your newborn baby will also be protected during their first few months of life.

Flu vaccine is safe

Flu vaccines have been given for more than 50 years to millions of pregnant women worldwide.

You can get the flu vaccine at any stage of pregnancy

The sooner you get the flu vaccine, the sooner you and your baby are protected.

Flu vaccine is free

Talk to your GP (doctor) or pharmacist today about getting the flu vaccine.
