

Flow Chart: Patient pathway Direct GP Access Echocardiography Service

The echocardiography service is available to all adults (Patients aged >16 years) regardless of their GMS status (public or private patient) who also fulfil one or more of the criteria below.

One **routine** echocardiogram will be facilitated per Chronic Disease Management Programme GP registration visit for heart failure, where clinically indicated, and if they have not had an echocardiogram done in previous 12 months

One **routine** echocardiogram may be ordered in a **non-acute episode** for an individual who presents with symptoms and signs suggestive of heart failure and who has a NTproBNP result >400pg/ml.

OR

One **urgent** echocardiogram may be ordered in a **non-acute episode** for an individual who presents with symptoms and signs suggestive of heart failure and who has a NTproBNP result >2000pg/ml

One **routine** echocardiogram will be facilitated per Chronic Disease Management Programme GP registration visit for a new diagnosis of atrial fibrillation, where an echo has not been done in the previous 12 months

GP assessment shows patient fulfils criteria, GP feels echocardiography is clinically indicated for further investigation of heart failure or new diagnosis of atrial fibrillation
