Foreword

I am pleased to present our annual report for 2016 which enables the Regional Centre of Nursing and Midwifery Education (RCNME) to reflect on the achievements and outcomes over the past year. Throughout the year we provided 175 programmes and 2023 nurses/midwives and allied health professionals attended.

I would like to acknowledge the effort and commitment by all staff in RCNME throughout 2016, and the clinical nursing staff of all grades who have made a significant contribution in the successful provision of programmes. We also recognise the valuable contribution of the Board of Management, the Office of Nursing Services Director, and the support from Hospital Management at Connolly Hospital.

I would in particular like to thank Jimmy Lynch, Interim Director of Nursing, Midwifery, Planning and Development and staff in funding the RCNME and in supporting the development of the new RCNME ('Tayleur House') on the St Ita's campus.

The 2016 Annual Report seeks to illustrate the activities of the RCNME. Essentially the report concentrates on providing an overview of developments to date. Moreover a series of tables are provided to indicate the activities of the Nurse Tutors. These include staff professional development, programme coordination responsibilities and the attendance figures per education programme within the HSE Dublin North East region in 2016.

I hope the report enables you to gain an insight into the RCNME's contribution regarding its activities for health care staff in the HSE Dublin North East Region.

Ken Brennan
Director
Regional Centre of Nursing and Midwifery Education
HSE Dublin North East
Connolly Hospital-D15

Overview of Activity in 2016- in brief

<i>Total number of nurses/midwives and allied health professionals that attended programmes</i>	<i>2023</i>
<i>Total number of programmes delivered</i>	<i>175</i>
<i>Total funding allocated</i>	<i>€150,000.00</i>

Annual Report on the Role and Function of the Regional Centre of Nursing and Midwifery Education

- 1. Participate at regional and national level on appropriate issues related to nursing and midwifery education, training and development***

The RCNME participated in a number of National/Regional Advisory Group Committees including *Mental Health Nursing, X-Ray Prescribing for Nurses, Assisted Decision Making, and the establishment of a Recovery College in Dublin North East in partnership with the NMPDU and DCU*

- 2. Manage such training and development budgets which will be allocated and prepare annual financial estimates in relation to this function***

The RCNME was funded by the NMPDU see page 11. Additional specific funding was allocated for fitting out the new RCNME ('Tayleur House') on the St Ita's campus

- 3. Identify in partnership with the Director of NMPDU the education and training and development needed to support the delivery of nursing care***

The RCNME developed a range of new programmes, for example '*Return to Nursing Practice*' (in collaboration with the RCNME in the Mater Misericordiae Hospital) for Registered General, Mental Health and Intellectual Disability Nurses and also developed the *Male Urethral Catheterisation and Suprapubic Re- Catheterisation Programme for Registered Nurses and Midwives*

4. Provide a comprehensive training and development programme in accordance with annually agreed objective

The RCNME produced a 'Calendar of Educational Programmes' for 2016 which was furnished to all members of the Board of Management in the HSE Dublin North East

5. Provide education and programmes of professional development across all divisions of nursing

The RCNME provided a range of educational programmes in 2016 for nursing and allied health disciplines, see page 15

6. Explore innovative ways to plan and deliver in-service staff development programmes

The RCNME continue to provide programmes combining e-learning, utilising HSELand

7. Ensure that education, training and development activities are grounded in sound evidence

All appropriate programmes provided by the RCNME are approved by either Quality and Qualifications Ireland (QQI), and/or the Nursing and Midwifery Board of Ireland or designated official training bodies. All academic programmes were revalidated by QQI from 2016-2020

8. *Ensure that training and development is aligned to national initiatives and organisational objectives*

The RCNME takes cognisance of the HSE's National Clinical Care programmes and the Office of Nursing Service Directorate strategy in the provision of education and training

9. *Promote interagency educational practices*

The RCNME worked with a number of agencies in the provision of educational programmes in 2016 for example, Nursing and Midwifery Board of Ireland, Area/Director Nursing, Midwifery, Planning and Development, Quality and Qualifications Ireland, Health Service providers, Voluntary Hospitals, Office of Nursing Services Director, National Office for Suicide Prevention

10. *Source and evaluate internal and external education and training providers*

The RCNME sourced a wide range of providers in education including representatives from Health Care Agencies and the Health Service Executive

11. *Encourage and support the research agenda-*

All programmes provided are evidenced based

12. *Ensure very close relationship and liaison between higher education institutions and all health service agencies*

A number of academic programmes provided by the RCNME are on the National Framework of Qualifications at level 5/8, approved by Quality and Qualifications Ireland and the Nursing and Midwifery Board of Ireland as appropriate

Programme Co-ordination Responsibilities in 2016
