Foreword

I am pleased to present our annual report for the year 2013 which enables the Regional Centre of Nursing and Midwifery Education to reflect on the achievements and outcomes over the past year. Throughout the year we provided 39 programmes and 1335 nurses/midwives and allied health professionals attended.

I would like to acknowledge the effort and commitment of all staff in the Regional Centre of Nursing and Midwifery Education throughout 2013 and also clinical nursing staff of all grades who have made a significant contribution in the successful provision of programmes. We also recognise the valuable contribution of the Board of Management, Office of Nursing Services Director, Area/Director Regional Nursing, Midwifery, Planning and Development, Nursing/Midwifery Board of Ireland and Hospital Management at Connolly Hospital. I would in particular like to thank Eithne Cusack, Director of Nursing, Midwifery, Planning and Development and her staff for her ongoing support and allocation of funding for continuous professional development.

The 2013 Annual Report seeks to illustrate the activities of the Centre. Essentially the report concentrates on providing an overview of developments to date. Moreover a series of tables are provided to indicate the activities of the Nurse Tutors namely, the organisation of Education and Training, the Annual Budget, Professional Development and the attendance figures of nurses/midwives and allied health professionals within the HSE Dublin North East region in 2013

I hope the report enables you to gain an insight into the Centre’s contribution regarding the education and training of health care staff in the HSE Dublin North Region. Finally, on behalf of all stakeholders I would like to wish Anne O Sullivan (Tutor) a very happy and productive retirement.

Ken Brennan
Director
Regional Centre of Nursing and Midwifery Education
HSE Dublin North East
Connolly Hospital-D15

Annual Report on the Role and Function of the Regional Centre of Nursing and Midwifery Education

1. Participate at regional and national level on appropriate issues related to nursing and midwifery education, training and development

   • The RCN&ME participated in a number of National Programmes commissioned by the ONMSD including the Stroke Care foundation programme and the ICU training programme for Non ICU Nurses

2. Manage such training and development budgets which will be allocated and prepare annual financial estimates in relation to this function

   • The RCN&ME was successful in obtaining funding from a number of sources- see page 11

3. Identify in partnership with the Director of NMPDU the education and training and development needed to support the delivery of nursing care

   • The RCN&ME prepared a Psycho-Social Interventions two module programme for mental health and related services which went through validation by Quality and Qualifications Ireland in October 2013

   • The RCN&ME provided a range of new programme for example ‘Excellence in creating mental health records’ ‘Recording and Report Writing’ and ‘Wound Management Skills for Nurses’

4. Provide a comprehensive training and development programme in accordance with annually agreed objective

   • The RCN&ME produced a ‘Calendar of Educational Programmes’ for 2013 which was furnished to all members of the Board of Management in the HSE Dublin North East.
5. *Provide education and programmes of professional development across all divisions of nursing*

- The RCN&ME provided a range of educational programmes in 2013 for various nursing and allied health disciplines, see page 15

6. *Explore innovative ways to plan and deliver in-service staff development programmes*

- The RCN&ME continue to provide programmes combining e-learning, utilising HSELAND

7. *Ensure that education, training and development activities are grounded in sound evidence*

- All appropriate programmes provided by the Regional Centre of Nursing and Midwifery Education are approved by either a Third Level Institution, Quality and Qualifications Ireland, Nursing and Midwifery Board of Ireland or designated official training bodies

8. *Ensure that training and development is aligned to national initiatives and organisational objectives*

- The RCN&ME obtained budget/funding from different agencies based on educational programmes that reflected national, regional and local service needs-see page 11
9. *Promote interagency educational practices*

- The RCN&ME worked with a number of agencies in the provision of educational programmes in 2013 for example, Nursing and Midwifery Board of Ireland, Area/Director Nursing, Midwifery, Planning and Development, Third Level Institutions, FETAC, QQI, Health Service providers, Voluntary Organisations, Office of Nursing Services Director

10. *Source and evaluate internal and external education and training providers*

- The RCN&ME sourced a wide range of providers in education including representatives from Third Level Institutions, Health Care Agencies and the Health Service Executive

11. *Encourage and support the research agenda*

- All programmes provided are evidenced based

12. *Ensure very close relationship and liaison between higher education institutions and all health service agencies*

- A number of programmes provided by the Regional Centre of Nursing and Midwifery Education are on the National Framework of Qualifications and approved by Quality and Qualifications Ireland and the Nursing and Midwifery Board of Ireland.
