

LGH Pathology Reception - General Information

The Laboratory Reception is situated within the Pathology Laboratory and is divided into two areas. In Sample Reception, samples are received, checked, registered and distributed to the Laboratories for analysis. Staff in the Reception Office deal with telephone and personal callers, provide administrative support on samples referred to outside laboratories, and handle distribution of Laboratory patient reports and sample containers.

Routine Opening Hours

Laboratory Reception	Monday - Friday	0900-1700
----------------------	-----------------	-----------

Laboratory Reports

Patient reports are distributed Monday to Friday. In addition, reports to Emergency Department and Renal Dialysis Departments are distributed Saturdays and Sundays.

Telephone enquiries for Results

Telephone enquiries are answered Monday to Friday, 9am to 5pm. Routine telephone enquiries should not be necessary from hospital staff in areas where results are available on the LIS (Laboratory Information System).

Requisitions for Laboratory Forms and Sample Containers

The Laboratory reception supplies Laboratory request forms and sample containers to Hospital and Primary Care units. All orders must be collected.
