

Women's Health Unit

Our Location:

The Women's Health Unit is located on the 2nd floor (Level C – Willow Unit) of the Regional Hospital Mullingar.

Our Services:

- Fetal Assessment Unit: Care of high risk mother and baby during the ante-natal period
- Care of the mother in early pregnancy (EPU)
- First ante-natal visits
- Urodynamics
- Women's physiotherapy

The aim of our team is to ensure every woman attending our service has a right to evidence based care within the resources that are available to meet her individual needs, taking into account her physical, social, educational and spiritual needs. All women deserve respect and have the right to make informed decision about their health care.
